Halsted Place

One in eleven American women will develop breast cancer.

If it's found early, about 90% of them will survive.

The key to beating breast cancer is finding it before it spreads. While it's still 90% curable. With the best chance of saving the breast.

Providence Hospital provides a comprehensive Breast Health & Education Service, including quality, low-dose mammography screening, which can detect breast cancer before it's life-threatening.

Call one of our three convenient locations to begin your breast care program today. And practice it for life.
