

Rotary honors cable volunteer

Rotary president Bob O'Brien presented the Humanitarian Service Award at the October Rotary luncheon.

Kevin Bink of the Farmington News recognized him for his outstanding community contribution. Many Members of Metro-Vegas and several had the privilege to meet and honor Bob O'Brien.

High tech volunteerism today doesn't mean others who have shown of their own. Many have been particularly motivated by his energy.

His involvement commitments were active as producing, directing and writing for such shows as "Sector of the Move," "Am" and "Women on the Move." He has given a location tribute for such programs as "Theaterman," "Dance," "Miss Senior," "Misspelt," and "Cherryville School."

Other contributions also include the creation of "Champion Graduate" trophy awards of several shows.

We are all proud of you, Bob O'Brien.

We have found that the value of community news television has been generally appreciated by many. Some already changes in their lives. Examples of this is graduating from high school to college, college to the work force, marital status change, family members change - when the children leave the nest, and retirement.

Community television news coverage that is enhanced, comprehensive with a varied result.
