color combination. One neutral, one bold, and a spot of color make a terrific color trio.

One innovative decorative touch this spring is the defining structure, called to stand out against its back-

ground. This structure may be a door or window frame, window box, chair or stool, furniture frame, or even a picture frame. The process is called outlining, and the effect is intriguing.

CHAIRS AND STOOLS are also popular when painted to be accent pieces. Take an old piece and make an outdoor project out of it. Then top it with a plant. You will have created a new addition that is whimsical and fun.

The spring colors are rich and full. In the vibrant group, there are deep blues for a quiet banana, vibrant yellow, and a true western malibu. In the calm, mellow, adventure green, mountain blue, raspberry pink, and white.
