

## Features make the house

Hardly an amenity was missed when this residence was designed. It features a two-story great room, first-floor master bedroom suite, a daytime bath and a private master bath on the first floor, deck access from the master bedroom, great room and breakfast room, a formal dining room and three bedrooms, three baths and an upstairs bonus room.

An open foyer forms the entrance to the house. The kitchen, breakfast room, great room and master bedroom are arranged to take advantage of the outdoor deck area. The master bedroom has two walk-in closets and a compartment bath

with garden tub and shower stall and well as two separate vanities.

The European exterior is embellished with ornately trimmed multi-panel windows, multiple roof breaks, stucco finish and a side entrance to double garage.

Plan No. 2024 is computer generated and includes 2,964 square feet of heated area. All W.D. Farmer plans include construction details for energy efficiency and are drawn to meet FHA and VA requirements.
