

# FORGET IT, WOLFIE!

This house is protected with  
DuPont **Tyvek** housewrap!  
Designed to prevent air infiltration,  
**Tyvek** housewrap eliminates  
drafts and saves on air conditioning  
and heating costs.

Installed underneath stucco, brick or  
any other exterior siding, **Tyvek**  
Housewrap helps insulation do its job  
by preventing air infiltration, cutting  
energy bills and making your home  
more comfortable. Whether you are  
residing your old house, or building a  
new one — plan to use **Tyvek**.  
Housewrap. A small investment that  
will reap energy savings and added  
comfort year after year.

...Just fill out the coupon below and we will send you a  
Customized Computer Energy Analysis of your house  
plans, estimating the savings realized when you use **Tyvek**  
Housewrap to reduce air infiltration.

Our computer program takes into account many variables  
including climate, square footage, "R" values, type of  
heating/cooling systems to be used, and many other  
construction elements.

For further information about our offer of a Free Computer  
Energy Analysis, please call Hansen Marketing Services.
