

people shampoo once a month, some once in two months — we've had ours now for six months and I see no indication that it needs to be shampooed."

Levy complimented Livonia and the surrounding area as a great one for keeping up to date with carpeting.

"People say they want their carpeting to last — but they really don't mean it. In ten years, which is how long most carpeting is guaranteed for, they're ready for a change and with all the new styles, textures and colors com-

ing out — they should be."

A few random facts regarding carpeting for our brides-to-be include the fact that the most popular color is red, that carpeting is made tough and durable making "throw rugs" unnecessary.

If Kathie and Larry and other young newlyweds want to skip step two — the purchase of inexpensive carpeting — and step up from a rug to good carpeting, they'll make a lot of people happy, including themselves.
