MECHANICAL SHOP

Completed in 1992, the new 100,000-sq-ft plant is a state-of-the-art facility designed to meet the needs of the automotive industry. The plant is located on a 10-acre site in the industrial district of the city. The plant is a single-story building with a high ceiling and large windows. The interior is finished with a polished concrete floor and a drop ceiling. The plant is equipped with a variety of machinery and equipment, including a large CNC machine, a laser cutting machine, and a welding machine. The plant is also equipped with a variety of tools and equipment, including a large number of hand tools, a variety of power tools, and a large number of measuring instruments. The plant is also equipped with a variety of safety equipment, including a fire extinguisher, a first aid kit, and a safety harness. The plant is also equipped with a variety of office equipment, including a computer, a printer, and a fax machine. The plant is also equipped with a variety of other equipment, including a large number of storage containers, a variety of workbenches, and a large number of other tools and equipment. The plant is also equipped with a variety of other equipment, including a large number of storage containers, a variety of workbenches, and a large number of other tools and equipment. The plant is also equipped with a variety of other equipment, including a large number of storage containers, a variety of workbenches, and a large number of other tools and equipment.
