

Turn newspaper into new paper.

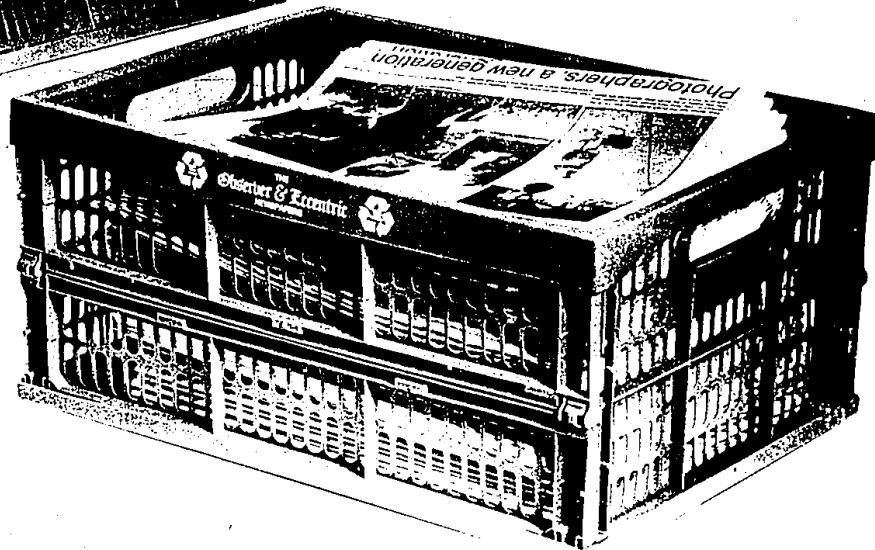

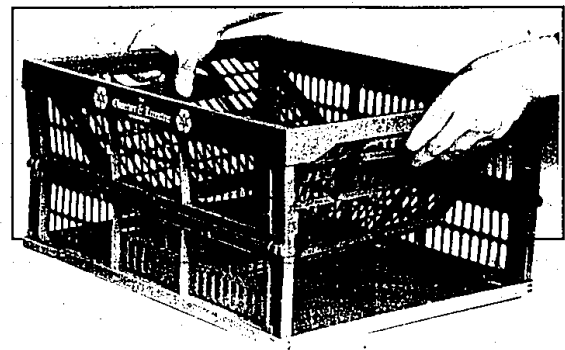

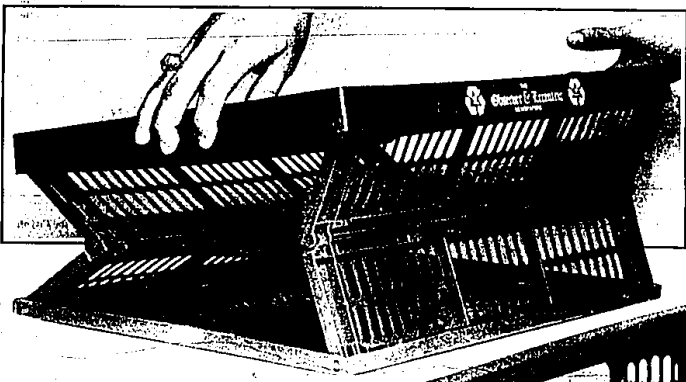

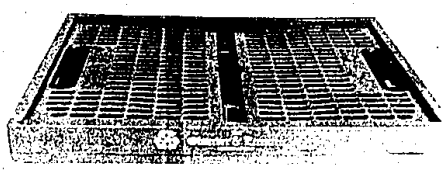

How? By saving your newspapers and then recycling them from this collapsible bin!

We're committed to recycling and if you are too, you'll enjoy using something that really works well for newspapers. In fact, we tried a number of bins until we found one that we really liked. This one was the best of the lot.

It's made in the USA, constructed of recycled plastic, and available in medium blue only.

We're offering it —while limited supplies last—for only **\$5.00.**

If you'd like one, stop in at one of our offices soon.

- Light weight plastic
- Heavy duty
- Washable
