**Gone are the Old Penalties of Low Price**

Until the new Pontiac Six was developed, it was literally impossible to buy a low priced six without accepting certain admitted penalties—those of ordinary beauty, ordinary performance, ordinary comfort and ordinary stamina.  
 Now the new Pontiac Six changes all that. Developed by engineers who could draw on the almost limitless resources of General Motors, it provides not only the economy of an unexpectably low price—but every characteristic of high quality.  
 It provides the striking beauty of a freeroomy Fisher Body; complete freedom from pitching, side-sway, and galloping entirely new qualities of get-away, speed, smoothness and power; and above all, a stamina and long life that can be achieved only by the strictest standards of design, material, workmanship and inspection.  
 And because it gives all that it does at so low a price, the new Pontiac Six has won from the very hour of its public presentation a wildfire response, the like of which no other new six has ever enjoyed before.  
 Oakland Star, Companion to the Pontiac Six—\$275 to \$1295. All prices at factory

 CHIEF OF THE SIXES

**Given American Food, Prison Had No Terror**  
 Major Malcolm Wheeler-Nicholson, who is president and editor-in-chief of Wheeler-Nicholson, Inc., during the war was in command of a battalion of American infantry in Siberia. His organization was entrusted with the guarding of some eleven thousand German, Austrian and Turkish prisoners who were supposed to be pretty tough customers. At any rate, they had been pretty tough customers until the major and the Americans arrived. They were surrounded by a heavy guard with fixed bayonets and put on American army rations.  
 A day later the major counted his prisoners to make sure that none of them had escaped and to his surprise made the discovery that the number of his charges had been increased by two thousand.  
 Moral: The way to a prisoner's heart is through his stomach.

**Teacher Didn't Matter**  
 When "sheik" came to roll call at Tech he found out that his teacher was going hunting Thursday (Thanksgiving day). He went up to the teacher and asked whether he could go along. The teacher said: "I think you ought to go hunting with some boys your own age, about sixteen or seventeen years old." "Oh, I can't do that, my mother won't let me," said "sheik." "Well, who not?" asked the teacher. "Because I'm afraid I might shoot one of them."—Indianapolis News.
