

Spring

is a camper's dream...

Warm spring weekends, a shimmering lake free of ice and the crisp odor of a campfire can be more than a dream. It can be a very real scene for you. If your camping equipment has seen better days or if you have none at all, the OBSERVER WANT AD department has an easy solution to both problems.

START SPRING CLEANING!

Grab not only the scrub brush and dust cloth, but pencil and paper too. Then, when you uncover something that you will never use again, make a note of it and throw it in a pile. When your pile is high enough and your list is long enough, call your friendly Observer Ad Taker. She'll place your ad and you'll soon be part of the fish and forest scene.

We can help you bait your hook!
