

## High School Spotlight

**Second Grade**  
We are making a new border for our room of bright colored fairy flowers.  
We have finished our silent and oral reviews of book I. and are now starting book II.  
In nature study we are drawing and studying the trillium and May apple.  
Domna Percy.  
**Third Grade**  
Today we are writing about the cardinal for our bird booklets.  
In arithmetic we are measuring surfaces and have learned how to find the number of square inches, feet and yards in given surfaces.  
**Eighth Grade**  
Plans for the eighth grade exercises for closing are almost finished. The class voted for speakers Friday!  
We took the county examina-

tions Friday. The class, as a whole, came through fine. Athletics  
The boys have been quite fortunate of late as they have won three out of four games, all of their victories were won by high margins. Out of the last three games played, our team has scored 14 points to our opponents 5. The game Friday was postponed because of rain, after our boys took a lead of 4 to 0 in the first three innings.  
Wednesday the boys go to Ypsilanti to play. Ypsilanti seems to be dark horse this year.  
Friday they play Dearborn here. It is the team to which we lost our first game. The score was 5 to 11, favor of Dearborn. Come out and give the boys your help by seeing this game and yell for them.  
Bill Starkey.

## Ten Years Ago

Birmingham was eleven miles from the limits of a city of 700,000 people.

### TODAY

FARMINGTON is five miles from the limits of a city of 1,500,000 people.

This great city is growing just as fast as the smaller one did; everybody is talking decentralization and suburbs and there is no World War to retard growth, development and prosperity.

You must admit there were wonderful opportunities to make money on real estate at Birmingham ten years ago.

We believe there are more wonderful opportunities at Farmington today.

See us now! \$100 will start you on the road to wealth and independence.
