

## BORN OF EXPERIENCE!

In the twenty-eight years of its existence this banking institution has built up a clientele that includes many of the community's foremost citizens.

The pleasant relationships existing between this bank and its customers is built primarily on Confidence. And Confidence is much more than blind faith. It is a feeling of security built on actual knowledge of the banking ability of the institution's personnel.

We are grateful for this Confidence and ever mindful of our duty to justify it.

## The Apple Favorites

Three states—New York, Michigan and Virginia—produce nearly one-half the average apple crop of the barrel region. Leading commercial main-crop varieties of the barreled-apple region are Baldwin and Rhode Island Greening in the North. York Imperial and Wine-sap in the South, and Ben Davis and Jonathan in the West. Leading fall kinds are Oldenburg, Wealthy and McIntosh.

## Glass Without Sand

Chemists at Cornell university have discovered a way to make sandless glass by using a compound of germanium, a rare, newly discovered metal as substitute for the usual silica. The metal, extracted from fine oxide, is a flaky crystalline substance, hard and extremely brittle, and is worth many dollars a gram.

## Diplomas

Maurice Langdon was, dissecting that new type of college student who just "gets by" and really learns nothing but smoking and jazz.

"There is an old fable," he remarked, "in which an ass disguises himself in a lion's skin. But nowadays they disguise them with a sheepskin."
