Some Don'ts

You will get more satisfactory service from your electric lights if you pay heed to the following suggestions:

DON'T give the bulb a hard final twist when screwing it into the socket. This tends to loosen the glass from its brass base and shorten the life of the lamp.

DON'T let dust gather on lamp bulbs. It may absorb as much as half the light. Wipe with a soft, dry cloth at least once a week.

DON'T use lamps that have become blackened from long use. They waste your light and strain the eye. Return them and get new lamps in their place, free.

DON'T use bare lamps. Have a shade of glass, silk or parchment to soften the light and spare the eye.
