## Farmington School News

### Kindergarten

We are now studying the story of the Little Red Hen. Soon as we get a little farther along we shall dramatize it.

The children have been collecting boxes which they will use in making of doll houses.

### First Grade

The children have started buying and selling in their grocery store which they have named the A. & B. Store.

### Opportunity Room

Russell's class in arithmetic is studying short division.

We lost the flag this week and it was taken to the fourth grade room.

### Third Grade

William Fleming is back to school after having the mumps.

We are all very glad to have Isabelle Yorks back with us again after five weeks absence.

The children are all very busy planning and making an Easter border for the room.

### Fourth Grade

We are all very proud to say that we have held the "Bank Banner" for five weeks and we are going to keep it the rest of the year.

We are now studying and getting the story of New Orleans for our map books.

We have formed a scout team for good citizenship. The new members are Jack Palmer and Dorothy Davis.

### Fifth Grade

We won our first banking star this week.

### Eighth Grade

We have an honor roll this month. It consists of the students who have excelled in scholarship. Barbara Moon, Louise Brock-

schmitt, Johnay Lapham and Virginia Otis.

The nurse has been weighing us and we are anxious to find out whether we will have to cut down on candy.

### Boys Basketball

Last Friday night, March 4 Plymouth came to Farmington for our last game on our own floor. Farmington tried their best to win but by the looks of things Plymouth had a little the better team. Although we lost it was a very fast and exciting game and when the final whistle blew the score was 24-14.

The first half the score was 13-0, Plymouth. By the second half the boys played a very even game the score being 11-11.

Monday night, March 7 our boys went to Fordson to play Russell Catherman's team. The game proved very exciting during the first half when we had only a one point lead. The third quarter we went ahead and the final score was 25-15, Farmington.

Fordson has a wonderful gym and an account of its being so large Farmington had a hard time to get used to it. The floor was somewhat slippery which slowed the game up.

### Hit or Miss

Miss Stenger—"There are only three people in this room who ever get their bookkeeping?"

Elroy Edwards (looking around) "Who are the other two?"

Mr. Leonard wrote the following criticism on a boy's report card: "Very good work but he talks too much."

The following day the card was returned with the following: "You should hear his mother!"

Virginia A.—"What is the difference between ammonia and pneumonia?"

Evelyn D.—"Search me." Virginia A.—"Why! Ammonia comes in bottles and pneumonia comes in chests."

Miss MacKellar—"Bill, what part of speech is nose?" Bill Pauline—"Gwan, you can't kid me, you don't talk with your nose, you talk with your mouth."

Grace Newcombe—"What causes 'tuzz on the lungs." Viris Jean Mac—"Can't imagine."

Grace—"Chewing the rag."

Advertise it in the columns of The Enterprise.

### FARMERS WAIT FOR CORN BORER DRIVE

With millions of dollars ready to back up their fight against the European corn borer, Michigan farmers are waiting anxiously this week for the signal to start the big drive.

A tentative program for the use of the ten millions just made available by the federal government has already been prepared. Only the necessary action by the states to support the federal act is needed now to make it possible for the full machinery to be put in immediate operation.

A large percentage of the appropriation will be allotted to Michigan, according to word received from Washington. While some of the fund must go into organization and equipment to carry on the clean-up planned, literally hundreds of thousands of dollars will be used to pay Michigan farmers for the extra trouble in cleaning up fields in the corn borer area. The corn borer, by this strange twist, promises to be one of Michigan's real "money" crops this year.

Action by the states in the area affected (Michigan, Indiana, Ohio, Pennsylvania and New York) is expected daily. Once the five states are in line, the government will throw all its efforts into the great campaign. Educational work and demonstration will go along with the actual control measures. The U. S. Department of Agriculture, the Michigan Department of Agriculture, and the Michigan State College will all have a definite part in the corn borer organization for this state.

### NOTICE

Phone Northville 201. 17-8-p

### Many Persons Cheat on Insurance Claims

Not more than 5 per cent of all insurance policy holders are dishonest, according to a high insurance official quoted in an article in Liberty by Florabel Muir. But burglary insurance offers the greatest temptations to the dishonest, according to the official. "Fire insurance," the writer points out, "used to be the greatest source of grief to the insurance companies, but precaution and detailed investigation have cut that down. Police records show that there are not enough burglars plying their trade to perpetrate all the thefts reported to the insurance companies."

"It is believed by many inspectors," the writer continues, "that 90 per cent of all burglaries reported are dishonest. It is a favorite trick to report the loss of diamonds handed down by ancestors. How can an investigator appraise a stone purchased by a great-aunt back in '49?"

### Improvidence

Labor Secretary Davis said at a banquet in Washington:

"American labor is the highest paid labor in the world, and it is also the most provident labor in the world. The European laborer, beside us, is like a tramp."

"A tramp, humming a gay tune, skipped merrily along a downtown street. A shopkeeper held him up and said:

"Look here, do you want to earn a quarter?"

"No, mister—thanks just the same," said the tramp, "but I got a quarter."

"And he skipped along more merrily than ever."

### "Bobbed" Barristers

Lady Clifton and all the other women barristers of England, with one exception, have bobbed their hair, partly, it is explained to facilitate the fitting of the legal wigs in court. The only unshingled barrister is Mrs. Helen Northampton, of London, who still maintains that she is "going to stick it out." Lady Clifton, niece of Lord Darnley, not yet twenty-seven, is the only present barrister.
