

"THE NEW IDEA"

West Point Park is a sterling illustration of the new idea in neighborliness. We have watched with interest this Community care for its finest obligations, with grace, and with joy.

The children are the guardians of the future. West Point Park built the best rural School in Michigan for its children, provided busses for transportation, with the result that in all the County of Wayne its attendance record is first.

The Social side of life mars or makes any Community, or civilization. Here at West Point Park your citizens are banding themselves together to build a Community Hall, and a Church, where the moral and social gifts of the people may find proper expression.

People of West Point Park, we congratulate you upon your vision, and your enterprise. We predict great and good things for this Community.
