Feeling Fine since I took FOLEY PILLS

It is a glorious thing to awake with a lively, healthy, energetic body. It is miserable to drag an aching, tired, weary body from a restless, sleepless bed.

The chances are that impaired kidney and bladder action has failed to clear the blood stream of lurking poisons which cause the distressing aches. So there is backache, rheumatic pains, weary tired feeling, and headaches, a general discomfort, and disturbed bladder action.

Foley Pills, a diuretic stimulant for the kidneys, are a reliable, valuable medicine that promotes healthy normal activity of kidneys and bladder. If constant use for over 25 years. Contains no harmful ingredient. Satisfaction guaranteed. Ask your druggist for Foley Pills.

Sandwich Was Merely

Sandwich to Jenkins

Marcus Low was talking about the restrictions that jealous European film productions are always trying to put on American films.

"These producers," he said, "are unreasonable. The more they get, the more they want. They remind me of young Jenkins."

"Young Jenkins went to board with a nice old lady, and the arrangement he made with her was that she should pack a lunch every day for him to carry to his work. It was stipulated that the lunch should consist of a meat sandwich and a can of coffee."

"Well, was your lunch all right?" the old lady asked him when he got home the first day.

"There wasn't much bread—only two slices," said young Jenkins.

"The next day she gave him two sandwiches—four slices of bread and still he complained."

"So, the third day, she took a whole loaf, cut it in half, and put about a pound of ham in the middle."

"Well, any complaints this time?" she asked him when he got home.

"I see," said Jenkins, "that you've gone back to two slices again."

Historic Relics for

New Chicago Museum

Among the interesting items in the vast collection of Charles F. Gunther, disposed of recently by the Chicago Historical society, were listed most unusual objects.

Part of the hair and beard of the Italian liberator, Joseph Garibaldi, was offered for sale, as was a piece of the tree under which the Virgin Mary was supposed to have sat, the clothes the king of Italy wore as a child and ancient Danish headdresses.

The collection of shoes was most unusual. The patent leather, cloth topped shoes President McKinley wore when assassinated, a horseshoe shoe fourteen inches long and five inches wide, once worn by a giant Prussian swordsman at the battle of Waterloo, and oriental foot coverings of all kinds and periods were included in the group.

These shoes were sold to Julius Rosenwald, Chicago philanthropist, who will place them in the new industrial museum toward which he has given the major part.—Chicago News.

Men Still Needed

Gen. Sir Ian Hamilton, in a speech which he called "Slush About Women," said the praise of woman and assertions of her taking the place of man, "has been overdone altogether—there's nothing to it. Woman is not lagging behind by any means, and she may smoke and drink cocktails, but men will always do the work in the mines, in the steel mills and in the executive offices and in the trenches of war where hard, solid thinking is necessary for success," he asserted.

Masonic Relics Displayed

While preparing Sandringham House in England for the ex-king and queen of Greece, Queen Mary came across some of Queen Alexandra's possessions including many articles of Masonic regalia that once belonged to the duke of Clarence who died in 1892. The relics have been presented to the grand lodge in England and are to be displayed at the Freemason's hall in London.

Brick Started Big Riot

They are just over four months of religious riots in Calcutta. This was started by a Mohammedan hauling a load of beef. A Hindu who will not eat this threw a brick at him, and this started a riot, which finally ended in calling out the militia from a distance of 700 miles away, and finally machine guns.

Yield to Progress

Pall Mall, one of the world's famous thoroughfares, has been illuminated by gas 115 years, and a movement has been started to change to electricity.

Polar Region Problem

One of the great problems that polar explorers are trying to solve is to determine the distribution of land and water in polar regions.
