M. Winifred, Sec.

A Mother and Daughter celebration took place on the Warner farm Sunday.

A very enjoyable time was had by Mr. and Mrs. Oswald Hustedt, Mr. and Mrs. Herbert Hustedt and children, Mr. and Mrs. Carl Hustedt, Mr. Calvin Hustedt, Mrs. Koch and children, Mr. Julius Mayer and Mr. and Mrs. Hess.

Miss Barbara Empson and Mrs. Henry Wick were hostesses to the members of the Pleasure Seekers Club at the home of the former on Thursday, May 5.

Decorations and music in keeping with Mother's Day, also a beautiful decorated "Mother's Day" cake adorned the center of the table, the work of Mrs. Wick. Pot luck dinner was served at the noon hour to 20 members and guests. The next meeting will be held in the afternoon only with Mrs. E. Simmons at Plymouth Thursday, May 19.

M. W. Empson.

Mind Hard to Make Up

They tell this of a Clay Center woman, but we doubt the story; at least we have never met up with a woman who couldn't make up her mind on just what she wanted if she could only find it on sale. She can't buy her coat until she gets her hat and knows what it is to be like and she can't buy her hat until she gets her dress and knows its color, and she can't buy her dress until she is sure of her shoes; and she can't get her shoes because they must match her coat, and she can't make up her mind about that—Capper's Weekly.

New Vacuum Cleaning

A vacuum cleaner for the barber! Not even the most carefully tight swathing of the neck by the barber keeps tiny hairs from slipping down the back, where they defy all attempt to remove and are a source of annoyance and irritation after the feminine "bob" or manly haircut. Now an effective remover has been devised in the form of a minute vacuum cleaner, with a suction powerful enough to dislodge the most tenacious hair from the neck or back, says Popular Science Monthly. It can be plugged into an electric socket.

Rug Hook Long in Use

For forty-five years Mrs. Ben Bunker of Southwest Harbor, Maine, has used the same hook in making rugs. It was fashioned from an ancient fork by a neighbor and in the time she has had it, the hook has been equipped with several new handles, the last being of mahogany. One of Mrs. Bunker's rugs is in the Louise Alcott home at Concord. She has also made with this hook two art squares containing respectively 100 and 110 square feet.

New Treatment for Honey

Electric heat is now used for the treatment of honey to prepare it for the market. Several hundred pounds of thick new honey, filled as it is with white material, is subject to a temperature of 150 degrees for about twenty-four hours. By the end of that period the honey is absolutely clear and ready to be run into bottles.

Small Wonder Coffee

Finally Tasted Bad

The antics of husbands while wives are away suffering are surpassed by the ingenious trick of one lone male whom the Women's Club at the home of the former on Thursday, May 5. Decorations and music in keeping with Mother's Day, also a beautiful decorated "Mother's Day" cake adorned the center of the table, the work of Mrs. Wick. Pot luck dinner was served at the noon hour to 20 members and guests. The next meeting will be held in the afternoon only with Mrs. E. Simmons at Plymouth Thursday, May 19.

M. W. Empson.

"Now, remember," she said, "there's all the fruit you want in the ice box, and the egg timer is back of the pepper box, and let the toaster heat 4 minutes before you toast, and—Oh, yes, just put about four teaspoonfuls of coffee in the percolator every morning; that'll be enough for a cup and a little over."

Wife "ta-ta-ed" away and hubby started his bachelor's life of seven days.

The week ended and brought wife back. Her first detour was into the kitchen to make away with accumulated cream bottles. One glance at the coffee pot and she said:

"Jack, what did you do with the coffee? It's—why, it's—haven't you ever washed it out?"

"Washed nothing!" retorted hubby behind a safety razor. "I wasn't going to fool around measuring out teaspoon, so I just dumped in 28 teaspoonfuls all at once and just heated it up every morning. It tasted pretty bad yesterday, though!"—New York Sun.

A SMALL MATTER

"I can't go to that dance tonight, I haven't hardly a thing to wear."

"Aw shucks, c'mon! You don't need much."

Sacred Peaks

There is every reason to believe that the Spanish peaks, in Huerfano county, Colorado, once were held sacred by the Indians. There are two peaks, one of them having an elevation of 13,623 feet and the other 12,708 feet. Sometime in the past the region was occupied by a strange and mysterious people whose identity never has been solved. Trace of gitches; ruins of structures, stumps of fruit trees are found there. From the high points of one of the peaks mysterious sounds are heard today, rhythmic and musical, but their origin never has been traced. It is presumed, however, by some who have studied the phenomena that the sounds are produced by the winds in hidden crevices, says the Rocky Mountain News, and perhaps these sounds in the early days may have so impressed the early peoples that the peaks became a temple of their gods.

Worth While Motto

The Earl of Birkenhead, who used to be plain F. E. Smith, lawyer, and a son of a noncommissioned officer in the British army, is proud of his old family name. Birkenhead is what Americans would call a self-made lord. Lords must have crests and Latin mottoes, so Birkenhead took "Taber meae fortune," which means "Smith of my own fortune."

DRY UP!

Wife—"You're a cruel wretch! My cheeks are always wet with tears."

The Brute—"Oh, dry up—here's a blotter for you!"

Long Disaster Record

The greatest disasters resulting from natural causes from 1900 to the present time are thus classified: Galveston hurricane and tidal wave, 1900; destruction of St. Pierre, 1902; San Francisco earthquake, 1906; Monongal mine explosion, 1907; Messina earthquake, 1908; floods in Ohio valley, 1913; influenza epidemic, 1918-19; Japanese earthquake, 1923; Amalfi (Italy) landslide, 1924; Florida tornado, 1926.
