

WEST FARMINGTON

Mrs. Irvin Knapp
Correspondent

Miss Alice German is back in school after having the mumps. The Walled Lake fifth grade lost to Farmington sixth grade by a score of 24 to 30.

Mr. and Mrs. Marley Bachelor and family called on Mr. and Mrs. Irvin Knapp Sunday, May 15.

Mr. and Mrs. Irvin Knapp made a business trip to Pontiac Monday afternoon.

Mrs. William Graham spent Saturday in Pontiac.

William Knapp spent Monday with his aunt, Mrs. Charles Heliker.

Deputy William Tamm was called to the William Klein farm Friday morning. Dogs had broken in upon Mr. Klein's flock of sheep, killing one ewe and injuring others.

Mr. and Mrs. Roy Layland visited at Mr. and Mrs. Frank Cox, Sunday.

Mr. and Mrs. Roy Wolf from spent Wednesday with Mr. and Mrs. John Tamm.

Mrs. Rolo Crab spent last Thursday with Mrs. Frank Cox.

Irvin Knapp visited Mrs. C. C. Knapp in Detroit, Thursday afternoon.

Mr. and Mrs. Charles Heliker spent Monday evening at Mr. and Mrs. Marley Bachelor's at Walled Lake.

Mr. and Mrs. John Schrader of Detroit visited at Mr. and Mrs. William Grahams.

Mr. and Mrs. George Heliker spent Monday in Pontiac.

Mr. and Mrs. J. C. Cox have purchased a lot in Pontiac.

Mrs. Sarah Murray and daughter Mary spent Sunday with Mr. and Mrs. George Heliker.

Fred Hitchcock has sold his store at Highland and will move to his home east of North Farmington about the first of June.

Ray Marsh has torn down the old house in their yard and are grading their lawn.

G. Brining and son Gug Allen spent Sunday in Detroit.

Mrs. William Kurtz spent Friday in Detroit.

Mr. and Mrs. Carl Reinas were Sunday dinner guests of Mr. and Mrs. William Kurtz.

Miss Dorothea Kurtz attended a federation meeting in Detroit.

Willard Wixom has started to clean the West Farmington cemetery.

Mrs. Fannie Robeson spent Tuesday with her daughter, Mrs. Guy Seeley.

Miss Ethel Seeley is caring for Mrs. Marton Lake at Northville.

The West Farmington school will close Friday with a picnic at Dodge Park, Walled Lake.

Mrs. George Wixom and son Claris visited her sister, Miss Julia Egan in Detroit Sunday.

Miss Ethel Graham spent Sunday with Marquito Wixom.

Mrs. Elva Tolman is caring for Mrs. Earnest Esch.

Mr. Obrien of Detroit was a Saturday evening guest of Starr Graham.

Some of the young people here are planning to attend the Junior Hop at Walled Lake Friday evening.

Mr. and Mrs. William Hunt and son Ralph were Sunday guests of Mr. and Mrs. Robert Hunt of Novi.

Mrs. Guy Seeley and daughter June have fully recovered after having the mumps.

Mrs. John Tamm is able to be up around again, after being very sick.

Don't leave the windows without curtains all summer. It's so ugly and unattractive. If you must take down those that are up now in order to launder them, either put them back or provide another set for the warm months. Curtains soften the glare of the hot summer sun, and assure sufficient privacy without shutting out as much air as shades.

THE LIFE OF A BORER

Ten months of the year, from July through April, the European corn borer lives as a larva, or caterpillar, in the corn plant. In May it goes to the pupal stage (somewhat like a cocoon), shown at the bottom of this picture. In June it emerges from the cornstalk as a moth (male and female shown above), flies wherever the wind takes it, always at night, and the female lays from 350 to 500 eggs on the young corn plants. Eggs change to larvae, and the borers are at work again.

Tardy Mail Delivery

Set Down as Accident

The delivery of a letter that has been nearly seven years in making its way from Sing Sing to Brooklyn aroused interest the other day. But this record is surpassed by that of a letter which was eleven years in course of passage from Toulon to Paris.

On April 22, 1915, a man in Toulon mailed a letter to a friend in Paris. The war was on and lost letters were rather common. Receiving no reply, the writer assumed that his letter had been lost in the mails. Such, however, was not the case. It had merely gone astray.

A short time ago the Paris friend received it, and was not a little surprised to find his friend at Toulon asking him what he thought about the war situation. He was about to write, asking what he meant by the question so long after the event, when his eyes rested upon a penciled post office memorandum on the envelope. Posted eleven years before, the letter had been delayed in delivery "by an accident."

Auto Drivers Approve of Mirror Searchlight

For some time there has been on the market a combination of an electric searchlight and a diminishing mirror. The device serves the double purpose of an adjustable searchlight at night and in the day a mirror for rendering visible vehicles approaching from the rear.

The device is equipped with all the necessary brackets and wiring attachments, so that the lamp may be installed on a car in a few minutes' time. The switch is in the handle of the lamp, so that the driver can turn the light on or off as desired without interfering with the other lights. The lamp can be prepared for emergency service by wiring it direct to the battery.

The lamp embodies many conveniences, among which may be mentioned an adjustable look at any angle desired, and a detachable back reflector, so that the lamp bulb may be removed and replaced in the reflector without fingering or soiling the highly polished surface.

He Wins, Anyhow

A small boy was returning from school, crying bitterly.

"What ails you, my little fellow?" asked the old gentleman.

"I've lost the p-penny the teacher gave me for b-being the best boy in the class," sobbed the boy.

"Oh, well, never mind," replied the old fellow, "here is another one that will take its place. But tell me how you lost it."

"'Cause I wasn't the best boy in the class," replied the boy.—Lancashire Daily Post.

Autos Save Sheep

The value of motor trucks in saving sheep from starvation by transporting them from drought areas to green pastures was demonstrated during the recent dry period in Australia. The Department of Commerce announced. More than 10,000 sheep were moved 220 miles by means of a fleet of specially constructed trucks, solving a problem which has long confronted ranchers in Australia, the report disclosed.

Sparks From Radium Dial

More than 200,000 sparks fly off the radium dial of a watch every second. One grain of radium mixed with zinc sulphate crystals makes enough "paint" for 65,000 watches. The atoms of radium explode and send out helium atoms. Whenever one of these strikes a zinc sulphide crystal it makes a spark, just as a horseshoe does in striking a cobblestone.

Electricity for Dogs

One of the newest uses of electricity is its application to the treatment of dogs for distemper, which disease is said to cause 65 per cent of the deaths among valuable dogs annually. The animal is exposed to ultra violet rays for fifteen minutes at a time and the treatment is said to be effective.

World's Hop Crop

About one-fourth of the world's hop crop is grown here. In 1925 the world crop was about 118,000,000 pounds. Of this, 28,673,000 pounds were produced in this country. Washington, Oregon and California are the only states where this crop is of commercial value.

Church Notes

Beautiful Chevrolet
in Chevrolet History

The Imperial Landau

Specially-Built Fisher Body—Strikingly
Beautiful Duco Colors—Elegantly Appointed
—The Aristocrat of All Chevrolets

Again Chevrolet revolutionizes every previous conception of quality and elegance in a low-priced automobile by presenting the Imperial Landau—a new model whose distinction and smartness entitle it to comparison with the costliest custom-built cars.

Its specially-built Fisher body reveals all the mastery of craftsmanship for which the Fisher name is famous. The finish is lustrous black Duco, with embellishments of brilliant chrome red.

With oblong windows—with nickel-plated windblow and landau bows—with vaulted roof, and with top and rear

quar in mouse gray textile leather, this aristocrat of all Chevrolets is one of the most strikingly beautiful cars to be seen on the streets and highways.

And, of course, it has all the power, speed and smoothness—all the flashing acceleration, finger-tip steering and unflinching dependability that have brought to Chevrolet such world-wide fame.

This beautiful car is now on display in our showroom. Come and see it. You will be delighted to learn that a car so low in price provides such commanding individuality and style!
