PRIZES OFFERED FOR BEST VOICES

National Radio Audition Open to Young Singers in This Country.

America's future generation of vocal stars will be disclosed to the world this Fall as another of the wonders due to radio. Every young man or woman with the gift of song, whether from country, town or city, will have an equal chance.

A nation-wide quest for the best young singers and the opening of the door of opportunity to them has been undertaken by the Atwater Kent Foundation, an institution established for scientific and educational purposes by A. Atwater Kent, the Philadelphia radio manufacturer and sponsor of the Sunday night grand opera hour, broadcast over a network of nineteen stations.

The Foundation has announced plans for a "National Radio Audition," to find by competition the best undiscovered voices in the United States. Prizes aggregating \$17,500, with tuition for a musical education in certain cases, are offered as follows:

The two winners of first place in the National Audition—a man and a woman—will each receive a gold

decoration, \$5,000 in cash and two years' tuition in a leading conservatory.

Winners of second prizes will each receive \$2,000 in cash and one year's tuition.

Winners of third prizes will each receive \$1,000 and one year's tuition. Winners of fourth prizes will each receive \$500.

Winners of fifth prizes will each receive \$250.

Musical civic and women's clubs in each community in each state will be invited to hold local contests to select the best young man and best young woman singers of their towns. These winners will then be certified to a state audition, which will be broadcast by a radio station in each state. A state winner of each sex will be chosen and will receive a silver medal.

The next step is a district audition. The young men and women who have won state honors will be taken to a central broadcasting station in one of five districts, where an audition will be broadcast to select the two winners—a young man and a young woman—from that district.

The two winners in each district will receive gold medals and the ten finalists thus selected will be taken to New York for the final National Audition, to be broadcast over a national network of stations. All expenses of contestants in the district and final auditions, including railroad fare, hotel bills, entertainment, etc., will be paid by the Atwater Kent Foundation.

The spirit and purpose of the National Audition are indicated in a statement by A. Atwater Kent, president of the Foundation, who said:

"The discovery of one of those rare voices, of which each generation produces a very few, seems to me an event of profound national importance. Even when such a voice could give pleasure to only a few thousand people in a year it was a national treasure. Now that millions may enjoy it on the same evening through the medium of radio, such a voice has become priceless."

"The National Radio Audition, supported by the Atwater Kent Foundation, is an undertaking to search the entire country for beautiful voices and to offer these singers an opportunity for full development, recognition and reward."

The principal qualifications for contestants are as follows:

Must not be over 25 years old; must never have been associated with a professional theatrical or operatic company; must never have been a paid principal in any concert held outside their own states; must declare an intention to follow a musical career and must be free from theatrical or musical contracts.

This limitation permits choir singers to enter the auditions, even though they may have received financial compensation for singing in churches. Other groups from which entries are anticipated are students in musical schools and locally prominent singers in high schools and colleges. Musical organizations in each state are also afforded an opportunity to participate.
