

**CHEVROLET PRODUCTION FOR SEVEN MONTHS NEAR TOTAL FOR ALL OF 1926**

Chevrolet production for July raised the total volume for the first seven months of this year to nearly on a par with its entire output for 1926, in which year Chevrolet established an all-time production record for the manufacture of gear shift cars, according to figures released today by the Chevrolet Motor Co.

Production for the month just ended totaled 89,569 units as against 50,993 units for July, 1926, an increase of 75.65 per cent. This percentage of gain over the corresponding month of last year was greater in July than in any other month so far into 1927. The next highest month was February, when this year's figures revealed an increase of 67 per cent over February, 1926.

July volume brings production for the first seven months of this year to 97,318 units whereas in the entire year of 1926 the total volume was only 728,597 units, indicating that at the present rate of output the figures for last year will be passed before August gets fairly under way.

Chevrolet officials were confident in view of this extraordinary showing, that by the close of the year the total volume for 1927 would approach very closely to the million mark. The great Chevrolet factories are running day and night to accomplish this tremendous volume and to meet the steadily growing public favor which "The Most Beautiful Chevrolet" is everywhere commanding.

Hand in hand with this gigantic production schedule are new projects. Ground was recently broken for two new buildings and a new parts building are being erected at Flint, Mich. A new

office building and a new parts building are being erected at a cost of \$2,000,000. Work is being rushed so that both buildings may be ready for occupancy by October, 1927.

Chevrolet cars are sold in Farmington by the Farmington Motor Sales.

**PHEASANTS EAT CUT WORMS**

A farmer in Ontario thought that the pheasants were eating his corn. The game department killed two of the birds and examined their crops, in which were found 200 cut worms and no corn. It is a well known fact that pheasants prefer insects to grain food whenever they can get them.

**WELL BALANCED BILL FOR NEXT WEEK AT THE TEMPLE THEATRE**

Manager Herb Jennings of B. F. Keith's Temple Theatre has booked a show for the week starting August 21 that should please everyone. The program offers everything from music and dancing to comedy and novelty surprises. The headline act on the vaudeville bill will be Marjory Vadie and Ota Cygi with the Marjory Vadie dancers.

Ota Cygi is a concert violinist who, until he came to America, was the court violinist to the king of Spain, while Miss Vadie is one of America's famous dancers. Harry B. Mason and Marguerite Keeler will offer a humorous travesty known as "Money, Money, Money." The balance of the vaudeville bill includes Johnny Berkes in "Maybe, Who Knows?" assisted by Virginia Sully; The Croanaders who say they ate "Just Crooning"; and Perez and Marguerite in a delightful novelty treat.

The feature photoplay will be "Rich Men's Sons" with the adorable Shirley Mason and the handsome Ralph Graves in the leading roles.

**The Thoughtless Spark that Costs Millions!**

**FIRE PREVENTION METHODS**

- 1. Matches - Be sure your match is out. Break it in two before you throw it away.
- 2. Tobacco - Be sure that pipe ashes and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves or needles.
- 3. Making Camp - Before building a fire scrape away all inflammable material from a spot 6 feet in diameter. Dig a hole in the center and in it build your camp fire. Keep your fire small. Never build it against trees or logs or near brush.
- 4. Breaking Camp - Never break camp until your fire is out - dead out.
- 5. Brush Burning - Never burn stubs or brush in windy weather or while there is the slightest danger that the fire will get away.

No one would knowingly cause forest fires. Yet 725,928 acres of timber land were burned last year, in Michigan alone. Thoughtlessness caused practically all of it.

Every resident of Michigan and every visitor to Michigan enjoys and profits by Michigan's resources. And everybody loses when timber, one of the greatest of these resources, is destroyed.

Three great losses come from timber fires: (1) The timber loss itself, (2) the cost of fire suppression, (3) the loss of beauty, wooded lands are despoiled of their attractiveness, and this in turn causes partial drying up of lakes and streams.

You can help by making these facts more widely understood. Then care will replace thoughtlessness. Our forests will be used and enjoyed but not destroyed.
