

# You Won't Be Disappointed...

I like working on autos. My father started me out when I was 14. He was a mechanic on the old classics like Chevrolets, GTO's, Corvettes, etc. I've always wanted to be self employed so I can serve the customer more completely.

We, at Nick's Foreign & Domestic Auto Repair, promise to take care of the customer at all cost, just like dad taught us.

We Specialize In Carburetors
