the Louvered Fence

takes more time to build but the results are interesting. Use 1"x6" boards. The angle is determined by placing each edge of the board flush with the rail. Cut a 2"x2" block for uniform spacing of the boards as illustrated. This style of fence may be built with one section on top of the other; see illustration.

Build a Fence

There's a high or low wood fence to fit your style of home -- to add value, appearance and protection to your property. Plan it as a screen for outdoor living -- as a background for shrubs and flowers -- as a safeguard for children, pets and property. Let us show you how easy it is to build a strong attractive fence.
