Every year, over a million new college graduates put on their new blue suits and go job hunting.
All of them have degrees. Most of them have hearty

All of them have degrees. Most of them have hearty handshakes. But very few have what employers want most practical work experience.

That's why there's a nationwide program called Cooperative Education. It allows students to alternate studies at the college of their choice with paid, practical work experience in the career of their choice.

So Co-op Education students graduate with more than a degree. They have practical knowledge. And a competitive advantage in today's crowded job market. And that sure beats trying to B.S. your way into a job.

Co:op Education

You earn a future when you earn a degree.
