KNOWING YOU HAVE DIABETES ISN'T THE END OF THE WORLD. NOT KNOWING COULD BE.

Every year 500,000 Americans find out they have diabetes.

Support from family and friends softens the news and with proper care, diabetes can be controlled.

And life can go on. Untreated, diabetes can lead to heart disease, kidney disease, and blindness.

Diabetes can also result in early death.

Are you experiencing blurred vision, numbness in feet or fingers, or frequent skin infections? Are you over forty and overweight? Is there a history of diabetes in your family?

See your doctor. Because what you don't know can hurt you.

A message from the American Diabetes Association.

You won't notice any difference, but your country will.

The five minutes you spend registering with Selective Service at the post office won't change you. But it *will* make a difference to your country. So when you turn 18, register with Selective Service. *It's quick. It's easy. And it's the law.*
