Anti-Pollution Work Expands

Area residents who have been fighting pollution since February by operating neighborhood glass collection centers are now setting up to collect cans and paper.

Wayne State University students who are running the central collection point for the Detroit area at the Michigan State Fairgrounds are now accepting glass, paper, cardboard, cans, aluminum

foil, pie tins, and scrap.

Many of the 32 neighborhood centers are not yet equipped to handle paper and cans, and the neighborhood centers should be contacted before these materials are taken there.

THE FIVE neighborhood centers in this area include: Our Lady of Mercy High School, 2500 Eleven Mile,

FARMINGTON, open weekdays from 8 to 8:30 a.m., and Saturdays from noon until 2 p.m.

The OAK PARK Civic Center parking lot, open Wednesdays and Saturdays from 1 to 3 p.m.

The SOUTHFIELD Civic Center, open Saturdays from 1 to 4 p.m.

The Orchard Ridge campus of Oakland Community

College, Farmington, Orchard Lake Road parking area, Saturdays 10 a.m. to noon, and Sundays 2 to 4 p.m.

THE LIVONIA Environmental Awareness Center, open daily during daylight hours in the white garage at Five Mile and Westmore, near Farmington Road.

SINCE FEB. 1, when the Wayne State students started their program, 33 centers have been established, and more than 250 tons of glass collected. Six of the neighborhood groups are now running independent organizations.

The Fairgrounds site, which is used as a central drop-off point by 26 groups, is at Gate 2 on State Fair Avenue, and is open on Tuesdays and Thursdays from 10 a.m. to 3:30 p.m., and on Saturdays from 10 a.m. to 5 p.m. The students are looking for an alternate site to be used during the 17-day run of the Michigan State Fair during August and September.

The students also announced that American Can Co., 8651 E. Seven Mile, DETROIT, and National Can Co., 13000 Levan, LIVONIA, are accepting cans for recycling.

COMPLETE LINE OF PINE LUMBER FULL LINE LUMBER DEALER Save \$\$\$ at - PINE LUMBER CASHWAY

FEW FLOWERS are as easy to grow or produce as many blossoms as California poppies.

Poppies Pop Up In Poor Soil

No flower pops up much faster than the California poppy. Broadcast the seeds where you want the flowers and, almost before you know it, there they are.

This flower is the perfect answer to what to grow in that hot, sunny spot where the soil is clear sand.

You don't even have to plant seeds each year because California poppies seed themselves.

And they're so striking in their brilliant colors that the place you selected to plant them will be one of the beauty spots in your garden.

THERE ARE single, semi-double and double-flowered California poppies. Those with the additional petals, are, perhaps, a bit more effective, especially at a distance.

The traditional colors are yellow and orange but nowadays to those must be added pink, copper, scarlet, rose, amber and white.

Aurantica is the original California poppy. A good mixture with single flowers is named Sunset. Mission Bella strain produces both semi-double and double blooms and for largest, blinding orange flowers, choose the variety Honolulu.

All through the summer and into fall California poppies will open in your garden. Few flowers are so easily grown.
