Prostate screening tests to be offered

Prostate cancer is the most common cancer in men. It is estimated that one in 11 men will develop prostate cancer, with 122,000 new cases diagnosed in 1991.

In order to promote prostate can-

cer awareness and thus lead to an increase in early detection, Crittenton Hospital staff urologists will conduct a free Prostate Screening Clinic. The testing will be 4-8:30 p.m. Wednesday, Sept. 30, and

again on Thursday, Oct. 1.

Men older than 40 are encouraged to participate. There will be a \$10 charge for an optional prostate specific antigen (PSA) blood test.

For more information or to register for an appointment, call Crittenton's Community Health Education department at 652-5269. All inquiries are confidential.
