You May Not Be Getting Any Younger.  
But It's Easy To Feel Like You Are.

With regular exercise, you can strengthen your heart and lungs, feel better—maybe even live longer. You can maintain the active, independent lifestyle that means so much to you. And best of all, it doesn't matter if you've never been very active before—as long as you start now! Check with your doctor first. Then, just choose an activity you enjoy. Stick with it. And start feeling like you haven't felt in ages.
