Livonia, MI 48154
(1st Street N. of 5 Mile West of Middlebelt)

Are your hands numb or painful?

Carpal tunnel syndrome can affect people from all walks of life who use their hands in repetitive movements. This may make it impossible to do simple tasks without pain. Other symptoms include numbness in the fingers or hands which can sometimes interfere with work, play or sleep.

Surgical treatment for this condition is done on an outpatient basis. A new surgical technique is now available to limit the surgery to two tiny incisions. After surgery, there is less pain and soreness, and a quicker return to your normal activities.

For information or physician referrals, call 666-5546 Monday through Friday 8 a.m.-4 p.m.

Seeing Is Believing.

After RK surgery.

RADIAL KERATOTOMY
Surgical Correction of Nearsightedness & Astigmatism

Working for a newspaper and having young children at home means taking time off is out of the question. I had my RK surgery on a Friday and was able to return to work the following Monday. I even attended a party the day after surgery.

- Dharlene Norris, Farmington Hills

"I was the first of 4 members of my family to have RK surgery. My results are wonderful. I'm experiencing a whole new freedom without my glasses."

- David Gronow, Detroit, MI

"My husband was nervous for me, but now we both wish I'd had RK surgery years ago. Until now I didn't know a surgeon I felt I could depend on. I would hate to see my sons wait until they are my age to have RK."

- Adrienne Aweender, Brighton, MI
