Are you a Compulsive Overeater?

- | | | |
|--|--------------------------|--------------------------|
| 1. Do you eat when you're not hungry? | Yes | No |
| 2. Do you go on eating binges for no apparent reason? | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Do you have feelings of guilt and remorse after overeating? | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Do you give too much time and thought to food? | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Is your weight affecting the way you live your life? | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Do you use fasting, strenuous exercise, vomiting or laxatives to control your weight? | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Have you tried to diet for a week (or longer), only to fall short of your goal? | <input type="checkbox"/> | <input type="checkbox"/> |

If you answer "yes" to three or more of these questions, you may be a compulsive overeater. You are not alone. Millions of Americans suffer from this disease.

Compulsive overeating is a painful, relentless illness that interferes with every aspect of life. It is a disease that gets progressively worse if left untreated.

Weight gain often accompanies this illness. But not always. Many compulsive overeaters maintain normal body weight by strict diets, fasting, strenuous exercise, vomiting, or excessive laxative use. These methods are ineffective and medically dangerous.

Weight is not the problem, and dieting is not the solution. The problem is the disease of compulsive overeating, and the solution is a program of treatment and recovery.

The Eating Disorders Recovery Center (EDRC) of St. Mary Hospital offers an outpatient treatment program that leads to lasting recovery. Our approach is comprehensive. We help our patients make lifestyle changes that give them renewed confidence in themselves and more control over their lives. Gradually, the chronic binge/diet cycle is replaced by a healthy, more satisfying, and more productive way of life. With food in its proper place, weight normalizes.

At EDRC, we work as a team - psychologist, psychiatrist, physician, nutritionist, and specially trained therapists - to diagnose and treat eating disorders. This experienced staff provides treatment with understanding and sensitivity.

If compulsive overeating is a problem for you, or someone you love, take the first step toward recovery. Call us today at 591-2936, WE CAN HELP.
