## MAN'S SPACE ACHIEVEMENTS SHOW HIS GOD-GIVEN ABILITY

When man first planted his footprints on the dusty surface of the moon 24 years ago, it was only the forerunner of ever-more incredible accomplishments in his ventures into outer space, manned or unmanned.

The photography alone, directed at that mind-boggling distance from earth, shows unbelievably minute details of the planets and satellites in our solar system, including the spiraling red spot on Jupiter, the nearly transparent rings of Saturn, and the waxing and waning of the Martian polar ice caps. Even the thick clouds surrounding Venus have at last been penetrated to reveal its actual surface.

We should thank God at our House of Worship for endowing man with the ability to accomplish these marvelous feats, as well as for enabling us to see and understand them.

God obligeth no man to more than He hath given him ability to perform.  
-The Koran, Ch. 65

"With God, nothing shall be impossible."  
-Luke 1:37
