### New, local cable shows tune in to understanding B p.m. - Pet pointers: dog examination

LARK SAMOUELIAN

SAMOUELLAN cilites, and we inflitto program-ming ourselves. There are several new television series that will begin this full to encourage respect, and under-standing in several subjects. I. Native Americans Today — We will be hoating local native American groups to share with our television audience the quali-ty of their lifestyles, the informa-tion they are passing down through their generations and the political resteries contact us.

one interested in becoming in-volved, please contact us. 2. Inherited Wisdom — This is a program that Dave Teltmoyer and I produced many years ago and are reactivating it. premise is that through tellviloin we are listening, and we are lis-tening to our family members who have reached maturity and have much to say. It is intimate and emotional programming because each of us can identify and learn from one another. We hope that it

the franchise confranchise con-tract, the Southwestern Oakland Cable Commission fosters resident producers' use of our television fa-cilltics, and we initiate program-

## Disease is a type of cancer

#### Seventy-five per-cent of all newly diagnosed Hodgkin's disease patients are curable.

groin. Other symptoms may in-clude fevers, night sweats, itred-ness, weight loss or itching skin. Once digenoed, exploratory surgery of organs in the abdomi-real and peivle regions allows first-hand look at suspicious treas and to take biopsies of lymph nodes and tissues which would be otherwise hard to reach. The spleen is also examined. Depending on the stage of the disease, treatment usually in-cludes realiation therapy or che-motherapy.

cludes radiation therapy or che-motherapy. Seventy-five percent of all new-ly diagnosed Hodgkin's discase patients are curable. The chances for recovery continue to improve as scientists find new and more of curve the sevent much sevent more as scientiste ..... effective treatments.
