WEST POINT PARK

Mrs. William Zwahlen, Correspondent

Book week is to be February 3 to 10. Miss Edith Thomas, director of library extension work of the University of Michigan, will address the P. T. A. Friday evening, February 3.

Misses Ernestine and Lucille Wolfe, and Miss Alice and Betty Gullen, with George and Harold Gullen, were dinner guests of Mrs. Charlotte Wolfe last Sunday.

Mr. and Mrs. Austin Ault and daughter, Virginia, are staying in Detroit with Mrs. Rowe. Mrs. Ault's mother.

Little Wayne Ault, son of Mr. and Mrs. Clinton Ault, is ill with a severe cold.

Mr. and Mrs. David W. Ogilvie of Detroit were Sunday guests of Mr. and Mrs. Albert Owen.

Mrs. R. K. Smith and Rev. Balinger of Detroit were guests of Mrs. Margaret J. Davis Thursday.

Mrs. Ethel Middlewood and Barbara and Miss Mary Woolfit, foreign language teacher in Farmington High School, as guests of Miss Esther Middlewood attended the Ann Arbor Methodist Church Sunday morning and a lecture in the evening at Hull auditorium, by Dr. Greenfield.

Three of the teachers of Pierson School, Miss Tinsley, Miss English, Miss Finnegan and some of the older scholars attended the theatre in Detroit Tuesday evening.

On Monday Harry Wolfe's car slid into a ditch, but no damage was done to his car.

PIERSON SCHOOL NOTES

Primary Notes—Pierson School The boys and girls of our room were visited by Miss Tucker, Wayne County Librarian recently. She brought many new books.

We have missed June Ault, Virginia Forrest and Kenneth Wolfe—a great deal, they being absent on account of illness.

Dean Coolman visited us last Friday.

George Frantz and Helen Mae Lee are new members of our Primary family, making forty-nine members.

Elementary Grades We have one new pupil in each of our grades. We are studying the history of our state this month.

The Christian Endeavor will have a skating party Friday evening, January 20. If there is no skating they will meet in the Community Hall and play games after which a lunch will be served.

The Ladies' Community Club have divided into four circles with leaders as follows: No. 1—Mrs. C. Wolfe; No. 2—Mrs. Thomas; No. 3—Mrs. A. McGee; No. 4—Mrs. J. Martin. A meeting will be held the first Wednesday of each month.

A Father and Son banquet is slated for February 17th.

Picture Writing Goes Far Back in History

"It is an interesting reflection," points out David Sarnoff, vice president of the Radio Corporation of America, "that after thousands of years of communication experience mankind will probably go back, not in the too far future, to picture transmission—pictures of words as well as of photographic reproductions of immemorial systems. We are just entering upon the era of communication by the square inch."

Thousands of years ago picture writing was the only known method of communication. Subsequently, as a means of saving time, conventions of one sort or another were adopted, symbols which stood for the picture writing describing an object. Later came the alphabet, a still faster method of compounding pictures or words to express thought. Communication was carried on with the alphabet until the telegraph was invented, used to represent the letters of the alphabet. Dots and dashes were the fastest means of communication until the telephone was developed.

Now, however, science has discovered a method whereby an entire message can be transmitted with one operation, and apparently the speed of communication again has been increased. With it, instead of starting for word through the signature, an exact duplicate of the matter to be transmitted can be registered in the receiving office. The process will be slow, but progress is being made daily, and it seems certain that before long practically instantaneous visual transmission of messages of any sort will be possible.

MICHAEL FARRADY

"From the valley of despair there is a place to climb; we could not realize the height of mountains were it not for the values."

Anything that will bring calmness to a mind distressed is worth while. A service of serenity is offered.

Foxy Medicine Man

Anglers, especially those who seldom have any luck, may gain a new tip from the methods of "Old Joguk," medicine man and sovereign of an isolated tribe of Eskimos living on the wind-swept mud flats between the Yukon and Kuskokwim rivers in western Alaska, says the Pathfinder Magazine.

Every spring just before the salmon run up the rivers to spawn, joguk goes to the river mouth, where he performs queer incantations and magic rites. He wears a wooden mask resembling a salmon trout and dances and chants, commanding the fish to swim up the streams to his people.

For this "mysterious" power joguk exports over the fishes he visits every Eskimo home and collects one-fourth of all the fish caught as his share.

saves money

because it outwears all other all-rubber arctics

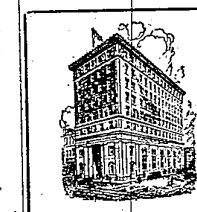

TOP NOTCH Corn Belts are the most economical all-rubber arctics you can buy. They will protect your feet long after frail, flimsy arctics have worn out. Corn Belts use so much more substantial because made of the toughest rubber—and plenty of it. We put into it the sturdy strength that enables it to withstand the roughest going for months and months. Fleece-lined, 4 or 5 buckle, red or black.

For dependable, distinctive boots, arctics and rubbers always look for the Top Notch Cross. The most reliable stores carry the complete Top Notch line for men, women and children. The Beacon Falls Rubber Shoe Co., Beacon Falls, Conn.

Danger in Depilatories

The use of depilatories, required much by the current mode, may be attended by considerable danger. Drs. H. A. McGulgan and H. N. Eis, of the University of Illinois Medical school, have found that barium sulphide, the essential constituent of hair-removing preparations, will cause serious results in rabbits if a large enough area of the skin is covered with the chemical. When a rabbit's ears were covered with a paste containing 50 per cent barium sulphide, enough was absorbed, said the experimenters, to kill the animal. Death is caused, they believe, by the formation of hydrogen sulphide, a gas that produces more or less toxic effects on human beings. The gas was detected in the animal's breath.
