The newspaper man is blamed for a whole lot of things he can't help, such as using partiality in mentioning visitors, giving news about some folks and leaving others out, etc. He simply prints all the news he can find. Some people inform him about such things and others do not. An editor should not be expected to know the names and residences of all your uncles, aunts and cousins, even if he should see them get on or off the train. Tell us about it. It's news that makes the newspaper, and every man, woman and child can be associate editor if they only will. Never apologize when you give this bit of information to an editor, for he lives one so dead that he has lost his appreciation of such favors he is dead, indeed, to every fault that imparts value to a paper.

For hammering, knee-knocking, quiet crack and lameness we can't be beat.

No town in the state or in any other place for that matter, can expect to thrive and prosper without the concentrated effort of its citizens and the judicious expenditure of money. The towns in our state today that are prosperous are the ones that have donated liberally to enterprises which employ labor. Thus it is and always will be that the liberal and broad-gauged town will thrive while the tight-fisted ones are struggling for the necessities of life. It is within the power of every town to increase her population. With which class do you desire to be rated? Do you wish it to go out to the world that you lack the energy necessary to protect your own interests? If not fit to work and do something that will increase your own wealth and make your neighbor more contented.

YOUNG BRIDE GIVES IT UP
Found Sporting Page Dope Too Deep When She Tried to Study Baseball.
She was a bride of six weeks. She had married a baseball fan, and on leaving the house that morning he had appealed to her to look at the sporting news in the paper and try to catch on to the game. She was a loving, dutiful bride. She sat down and read: "Jim then rushed in and swung for Joe's today."
"Joe administered a sound whack on the ear."
"Jim dodged for a moment and then got in a clean left and got away without a return."
"Joe followed him, and seeing an opening, dropped his man on the mat for the count of seven."
"When Jim arose he fell into a clinch and soon recovered his wind."
"At this point there were cheers for both."
"When the referee had separated them Joe planted a haymaker on Jim's side and Jim returned one on the side of Joe's head."
"The crowd went wild with excitement."
"Both men came together with a determination to end things. They were sailing like tops, and—"
"And right here the bride broke down, threw the paper aside, and ran to her mother to weep."
"Mamma, there must be a divorce, for I can never understand baseball, and Fred will be mad at me!"

UNCLE SAM IS SLOW PAY
One Army Officer Had to Wait 39 Years for Small Sum of Cash.
If anyone doubts that Uncle Sam often is tardy in settling his bill do not let this case go to dissipate that belief. It is the case of Brig. Gen. Harry H. Johnson, U. S. A., retired, to whom the government has acknowledged that he has had owing to him for some 39 years a small amount of government cash.
"After many years of putting Uncle Sam time and again through the third degree, as it were, in the shape of a pay service, the doughty general succeeded lately in extracting a full and complete confession from the controller of the treasury and law officer of the department, whose word is final, that his contention was right; that the government forthwith must turn over to him \$24.10 he ought to have had long ago."

"Fair-minded people will think that poor Sam, to do the handsome thing, ought to pay the general interest on the money he has not had the use of in this long period, but your Uncle Samuel will do no such thing. He pays no interest on such money as this and never has. At fair interest the claim would total more than \$800. While the amount involved is small, Gen. Anderson's case is unique by reason of its age and the fact that some of the items figuring in it date back as far as 1871, and are for ridiculous small sums, ranging from 40 cents to the highest single item of \$23.54."

THE MOSQUITOES OF ALASKA
Far North Species Is Worse Than Any Found in the Temperate Zone.
"Our summer lasted for three months, and during that time, by day as well as by night, we had the fight of our lives against swarms of mosquitoes which for tenacity of purpose and endeavor cannot be equaled in this world, and I have seen a good deal of it in my 15 years as a soldier," said A. A. Anderson, sergeant of Company C, Twenty-second Infantry. Sgt. Gardner was returning home to Milwaukee, Wis., after two years spent at Fort Gibson, Alaska, some 600 miles north of Nome, on the Yukon.
"The government maintains six posts in Alaska," continued Sgt. Gardner. "We had two companies at our post and did very little actual military work. Our principal work was in keeping up the telegraph lines which are owned by the government. The signal corps has large representation in Alaska, and the soldiers frequently are called on to give that department assistance."

A Simple Safeguard for Mothers
Mrs. D. Gilkeson, 326 Ingles avenue, Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. Sold by T. H. McGee.

Foley's Kidney Pills
What They Will Do for You
They will cure your backache, strengthen your kidneys, correct urinary irregularities, build up the worn out tissues, and eliminate the excess uric acid that causes rheumatism. Prevent Bright's Disease and Diabetes, and restore health and strength. Refuse substitutes. Sold by T. H. McGee.

Take Care
When the kidneys are affected, life is in danger. Read what Foley's Kidney Pills have done for your neighbor. Wm. E. Seaman, Flint, Mich., says: "For years I suffered with my kidneys, having severe backaches, attended with dizzy spells. I felt miserable, and tired out easily, and then I got some of Foley Kidney Pills and after using them a short time, a wonderful change for the better took place. My backache left me, and as I continued the treatment, the dizzy spells vanished. I owe my cure to Foley Kidney Pills, and wish everyone to know of them." Sold by T. H. McGee.

Smothering Spells
"I suffered for nine or ten years. Had spells of smothering, finally went into convulsions. Dr. Miller's Nerve brought complete relief, and I believe saved my life."
MRS. ROSA BONNER, 185 N. 18th St., Birmingham, Ala.
"The blood is the channel through which is transported the nourishment that sustains life. When the circulation is poor, your vitality is low, your nervous system exhausted, and you are weak and debilitated. You can restore nervous energy by taking Dr. Miller's Nerve. Its strengthening influence, upon the nervous system gives it power to send life-giving blood through the veins. The first bottle will benefit; if not, the druggist will return your money."
