VARIOUS CAUSES

High Court Decides Rights of Jurors

WASHINGTON.—The Supreme court has decided a case which involves the proper treatment of jurors. Because jurors had been permitted to separate and to read newspapers during a trial the court was asked to set aside the verdict. The case was a conviction for murder at military barracks in the state of Washington, where the juror had been allowed to be present while counsel argued about the admission of almost certain evidence. The Supreme court holds, in an opinion written by Justice Holmes, that the presence of the juror during the argument was not wrong, and that the members of the jury read newspapers and need not be kept together as a body.

The opinion upsets the common practice of trial courts. In important cases, notably those for murder, almost as prisoners. In their selection their intelligence is questioned and knowledge of current events made known to them. They are kept in their married and from the court room after the fashion of a chain gang in custody of an officer.

Foreigners Help Enforce Food Laws

OLIVE OIL labeled Luca has been found by the pure-food inspectors "smug and stolen" and from other places aside from Luca itself.

The government is now taking up the question of requiring the numerous varieties of coffee imported into this country to be honestly labeled. A recent meeting of the pure-food board was held for the purpose of taking testimony regarding the labeling of the coffee. After hearing testimony from experts present showing that the practice has grown up of labeling coffee with the name of the port whence it is shipped, regardless of the place of origin, Dr. Wiley stated that an effort would be made to reform this practice, which the importers admitted to be wrong, and that the matter would be properly taken up in due form with the government of Brazil through the state department, to the end that the Brazilian coffees, which form by far the greater part of the coffee used in the United States, should be sold only under their proper designation.

Importers from New York testified that Brazilian coffee had been shipped to Arabia in order that it might be reexported from there as Mocha coffee, and they said that the practice was still in force, although, as Dr. Wiley remarked, the importers did not always go to the trouble of shipping coffee to Arabia for export before branding it as Arabian coffee.

The Bonding of Government Officials

Senator placed the races and his salary held the bidder, whose bill amounted to about \$10,000. The successor was compelled to pay about 15 per cent of his salary in order to induce a surety company to bond him. The following is the foregoing of the senator.

Chairman Tawney of the house committee on appropriations proposed to limit the amount to be paid for bonding government officials. That called down the rank of the bonding companies. A hearing resulted. The government employees made more complaints about the increase in rates and the surety companies complained about the government officials being so stingy with statistics and other information concerning the departments.

The result was the appointment of a committee by the house and senate to investigate the subject. This committee hired a corps of experts to go over the field, figure out the percentage of faithless officials and the cost of insuring the government against loss.

Minister Wonders 'Where He Is At'

When the treacherous little monarch of Portugal fled to flee before the uprising insurgents he left one of his most loyal subjects in Washington and in the end he has been wondering since where he is at. Senor de Alito, known as Viscount de Alito, is or was the regularly appointed minister to Washington. He is a gentleman and a diplomat, one not always following the other, unfortunately, and has been very well liked in Washington, but he would give nothing to the right now to know whether he is a diplomat or just a plain gentleman or lawyer.

Since little Manuel was deposed Viscount de Alito has comforted himself

THE IMPORTANCE OF HEALTHY KIDNEYS.

Weak kidneys fail to remove poisons from the blood, and they are, the cause of backache, headaches, urinary troubles and dizzy spells. To insure good health, keep the kidneys well. Dean's Kidney Pills remove all kidney ills.

Mrs. E. E. Dewey, Neigh, Neb., says: "In 1909 I had a dreadful attack of dropsy, my face being so puffed I could hardly see and my feet and hands were terribly swollen. Dean's Kidney Pills were advised and I began taking them. It required only short use to restore my kidneys to a normal condition."

Remember the name—Dean's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Admitted.

"Women already do a lot of governing," said Mrs. O. H. P. Belmont, the brilliant suffrage leader, in an interview in New York. "Men, if they are observant and frank, admit it."

"An editor, about to marry, was asked: 'What prompted you, old man, to propose to Miss Dush?'"

"The editor, who was, like all editors, extremely observant and extremely frank, answered: 'Well, to tell you the truth, I think Miss Dush prompted me more than anybody else.'"

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on a cold winter morning results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-looking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a damper top and a cool handle. Indicator always shows the amount of oil in the font. The filler-cap does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unclogged in the event of reworking. The Perfection is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

WHY?

Because it is right at the edge of Greater Jacksonville, the fastest growing city in the country. Jacksonville Heights farms begin one mile from where land is selling in town lots at the rate of \$3,250.00 per acre.

Because it was practically the first of all the Florida colonies to develop and settle—on account of its unsurpassed soil, location, altitude and cheapest shipping facilities. Because 2700 farms have been sold to date and a population of about 700 souls sprung up in one year—and the lands are now settling at the rate of 40 families per month.

Because the Purchasers of Jacksonville Heights Lands Have Made Good

Settlers and farmers have succeeded. Prices and values have advanced—four schools have been erected. Hard surface roads constructed. Telephone line established connecting up with Jacksonville local telephone. Hotel buildings erected. 210 farms fenced and being developed all in a little over one year.

Because it is the Closest Colony to the Best and Fastest Growing City in Florida

We opened up our sale on April, 1909, at \$20.00 per acre. We have about 200 tracts left, now selling at the advanced price of \$30.00 per acre subject to another advance January 1st, 1911.

Write today to Jacksonville Heights Improvement Company, 122 Hogan Street, Jacksonville, Florida, for full particulars.

Investigate the proposition and the personnel of the Company through any channel you wish.

We will only sell an owning tracts and we cannot enlarge; we can only sell what land we now have on hand.
