

Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this result indigestion, piles, weakness, etc. But there is no use taking "purgative remedies" and things of that kind until you have started your bowels to moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good, mild laxative tonic like Dr. Caldwell's Syrup Pepsin. For a few days, and you will find yourself rapidly getting better and stronger; your bowels will regulate themselves and you will eat and sleep and then your headaches and dizziness will disappear. Don't take strong cathartic pills or salts, but just such a mild and pleasant tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your druggist for fifty cents or one dollar, and either size may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cures them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cook, 412 Twelfth street, Detroit, and Mrs. Ellen Dargun, Muncie, Ind., and read Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. This will cure you, as it did them, there is no doubt.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For the complete details of this address Dr. W. H. Caldwell, 2550 Caldwell building, Monticello, N.Y.

Deafness Cannot Be Cured
by local application, as they cannot reach the diseased part of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube is inflamed, it swells and closes off the passage, and the sound cannot enter the ear. It is only by getting rid of the inflammation that the hearing can be restored. Deafness is not a disease, but a symptom of a disease of the mucous lining of the Eustachian tube.
