

**FARMINGTON PREPARES INTRODUCTION OF NEW CHEVROLET**

Farmington Motor Sales Already Has Orders For New Six-Cylinder Car

The reason for the mysterious smile worn in recent weeks by R. E. Beckley and R. J. Nicholson, of Farmington Motor Sales, became apparent during the past week. It is the new "six" being built by Chevrolet.

A number of orders have already been received, according to Mr. Beckley, although those who have asked for cars have not yet seen the new models, the first of which are expected here some time next month.

Passing on to the motoring public the benefits of economies arising out of tremendous volume production, the Chevrolet Motor Company has introduced "the Outstanding Chevrolet of Chevrolet History—A Six in the Price Range of the Four."

In making this important announcement, W. S. Knudson, president and general manager points out that the sensational public reception accorded the car in recent years has enabled the Chevrolet at this time to offer the added power, speed and smoothness of six cylinder performance at practically the same prices that

**LETTERS TO THE EDITOR**

To the Editor:—A good share of the voters were out to the school meeting at the William Grace School on Friday evening last. It is regarded by some that some misunderstanding was had in the meeting. A short notice of this meeting, so short notice is called to make these things clear on November 26th. It is hoped that all will turn out for this discussion, as it is a duty of every citizen to take an active part in his own community, and especially where our next generation's education is at stake.  
—Herbert L. Lindstrom.

contributed so much to the world-wide popularity of the four-cylinder. Preparation for the greatest year in its history are now being made by the Chevrolet Motor Co. Production of the new car was started last week and the company's 15 plant factories across the country will be turning out cars to be shipped to dealers by December 15. Deliveries to the public will start January 1.

Although no definite schedule has been set for 1929, Mr. Knudson declared that production of the new car would probably exceed 1,250,000 in the four, surpassing all former records. In its new offering Chevrolet has retained the highly successful valve-in-head principle. The motor is of the light compression type with a non-detonating head and develops 32 per cent more power than its famous predecessors; its acceleration is measurably greater and its speed has been stepped up to satisfy maximum requirements. The piston displacement is 194 cubic inches. Despite this greatly improved performance standard, the new car has no extra load on every road and weather conditions at the General Motors Proving ground in addition to many cross country runs. The new Chevrolet engine will operate with an economy averaging better than 20 miles to a gallon of gasoline. This is practically the same fuel economy offered owners of the previous four-cylinder model.

The motor develops 466 horse power at low engine speed and as a result of the automatic lubrication of the valve mechanism the motor is exceptionally quiet throughout the entire speed range.

Seven models of passenger cars and three commercial models comprise the line, which according to General Motors officials, embodies the greatest dollar value ever offered in an automobile. Included in the passenger car line are five closed and two open models. All bodies this year carry the famous Fisher stamp of craftsmanship. The commercial line embraces a new and larger Utility truck, one and one-half ton capacity, a new light delivery chassis and the Sedan Delivery.

From an appearance standpoint as well as from the standpoint of the car is completely new with a wide range of attractive colors and fine car appointments formerly found only on the more expensive makes.

Despite the score of advanced features, prices remain practically the same, chiefly as a result of the influence of tremendous volume production. The passenger car ranges in price from \$329 to \$725, f. o. b. Flint, Mich. The prices, according to models, are as follows: Roadster \$525; phaeton \$525; coach \$595; coupe \$595; sedan \$695; the fire, which was obscured by smoke that filled the garage. Among the cars burned was a new \$5,000 machine.

**COMMITTEES APPOINTED FOR ANNUAL EXCHANGE CLUB LADIES' NIGHT**

Committees were appointed Wednesday noon by President Arthur Lamb of the Farmington Exchange Club for the annual "Ladies' Night" program to be held in the Methodist Community Hall.

The hall will be decorated and an interesting program will be arranged by the committees in charge.

Next Wednesday Walter Hastings, of the State Conservation Department, and of the Isaac Walton League, will speak in Farmington and show at the Exchange Club meeting pictures pertaining to outdoor activities.

**PLAN "FEATHER PARTY"**  
Groves-Walker Post, American Legion, of Farmington, will give a "feather party" in the Farmington Town Hall next Tuesday evening, November 27. The party will be invited, and a special invitation is extended to the ladies. Geese, turkeys, ducks, and chickens will be provided.

**Legion Conducts First Meeting Under Manual**

The meeting of the Groves-Walker Post, American Legion, on Thursday evening last, was opened and closed for the first time according to the American Legion Manual.

An interesting talk was made by Vice-Commander Myron Carrer in reporting the Sixth District meeting at Mon. Completed Harley Schroeder reported on the "Feather Party" to be given at the Town Hall Tuesday, November 27. Committees were appointed for the party.

Vice-Commander Carrer and Historian Herbert Lindstrom were appointed as a resolution committee. Two new members were admitted and on the return of Junior Vice-Commander Earl Pettibone, will be called for initiation into the Post. The new members are Deputy Sheriff Lee Doyle and Dr. G. Frank Weaver. All members are urged to attend the next meeting as several important matters are coming up for discussion.

**SEAL SALE IN COUNTY REQUIRES 10 PER CENT MORE THAN LAST YEAR**

Anti-tuberculosis work in Oakland County to be adequately financed next year, will require a ten per cent increase in the proceeds of the 1928 Christmas seal sale over the sum raised in 1927, according to T. J. Werle, executive secretary of the Michigan Tuberculosis Association.

"\$10,775.00 is the quota that has been set for Oakland County," declared Mr. Werle, "and unless that amount is secured, the County's tuberculosis program in 1929 will be crippled. The need for better chest clinics and follow-up nursing service and for more extensive health education work in the schools, for example, cannot be met without the larger sum."

Most of the Christmas seals will be started on Thanksgiving Day and will be continued until Christmas. Since 1908, when the first tuberculosis seals were sold in Michigan, the tuberculosis death rate has been forced down from 98.8 per 100,000 population to 67.0, the 1927 rate.

**LEAGUE TO BE FORMED FOR GAMES IN SCHOOL GYMNASIUM THIS YEAR**

Residents of Farmington are urged to take advantage of the permission that has been given to use the Farmington School gymnasium for games on Tuesday evenings. The gymnasium will be open to the public every Tuesday evening, after next Tuesday, November 27, when classes will be held in the school building.

So popular is the gymnasium already with adults that several teams are to be formed into a league for indoor baseball this winter. Volley-ball is also a popular sport. All interested are asked to come to the gymnasium on Tuesday evenings to join in the sport.

**AUTOS ARE BURNED IN BIG NORTHVILLE FIRE**

According to reports from Northville a large fire in that village burned several cars in a garage Tuesday evening. The fire started from an unknown cause in the garage of T. E. Bunn, 39 Main street.

Loyal German, well-known to many in Farmington, was overcome by smoke, when he dashed in to determine the location of the fire, which was obscured by smoke that filled the garage. Among the cars burned was a new \$5,000 machine.

**SOUTHFIELD MAKES TWO TALLIES BUT THEY'RE RULED OUT**

Touchdowns Called Back By Referee; Game With Crack Teams Ends 0-0

Playing the best defensive football he has shown this year, Southfield held the "one-ton" Pontiac team to a scoreless tie last Sunday. Coach Rowoldt's demand for harder tackling and blocking was in evidence Sunday, the team turning in the best performance in that respect they have shown in any game.

Southfield lost scoring opportunity early in the first period when after punting to the Pontiac team on their own 40-yard line, it was fumbled and recovered by a Southfield man. On the first play a pass, Hall to Robinson, placed the ball on the Pontiac 48-yard line. Three plays at the line came within inches of a first down. On the next play Hall plunged thru for the needed gain, but the Southfield team was penalized 15 yards for holding, and lost the ball thru an incomplete pass on the last down.

The Pontiac team took the ball after an exchange of punts, thru two long passes to a first down on the Southfield 5-yard line, where on three plays they lost a yard and on the fourth down passed over the goal line where it was batted down by a Southfield back. The remainder of the first half of the third quarter was largely a punting duel, with Hall having a slight advantage.

Late in the fourth period the Southfield team took the ball on their own 20-yard stripe after an attempted field goal by Pontiac was blocked, and two successive passes Hall to Newcombe, who had replaced Hagberg, made two first downs, placing the ball on Pontiac's 45-yard line. On the next play Hall again passed to Newcombe who ran the remainder of 30 yards to the goal, but was called back on a questionable decision by the referee, who ruled that Newcombe stepped outside.

Another pass was intercepted and the game ended shortly after.

**Work Is Started On Township's Tax Rolls**

Preparation of the Township tax-roll has been begun by Supervisor Harry N. McCracken and his son, Harold McCracken, who are to turn the rolls over to Township Treasurer Elmer Simpson for mailing of tax-bills, when completed.

Some idea of the immense amount of work involved may be obtained from a casual review of the pages to be filled. Six huge books, each containing 180 pages, with a great many descriptions of properties on each, are filled, and from this another copy is made, making twelve books in all.

Each of the thousands of parcels of land in the Township must be assessed for each item of taxation. In some cases, the tax upon a piece of land for one classification will be not more than a few cents. In some cases property has been divided in peculiar ways, making assessment almost wholly a matter of the most accurate guess possible as to the amount to be levied for the various purposes.

One piece of work in addition, done Tuesday in the course of the assessment work, was taken from the adding machine, after the long column had been added. It measured over five feet long.

**LEGION DANCE SUCCESS; COUNTY COUNCIL IS TO SPONSOR ANOTHER DEC. 5**

The Legion dance sponsored by the Groves-Walker Post, 346, American Legion, at the Town Hall Saturday evening was a success, considering the bad weather. The hall was beautifully decorated in red, white and blue bunting for the occasion. Several guests were present from out-of-town.

Several requests were made for more dances by the Legion. There will be another dance at the Town Hall on the evening of November 29, sponsored by the Oakland County Council, American Legion. Dancing will be from 9 until 12. A good crowd is expected as delegates from all Legion posts in the County will be present.

**LARGE AUDIENCE HEARS TALK ON WORK OF LEAGUE**

Farmington High School Students Enter Essays In Contest For Awards

Thursday evening, November 15, at the Salem Evangelical Church Hall, the Farmington Woman's Club held their regular meeting, to which the public had been invited. The program was opened with a song by Virginia Otis, accompanied by Roberta Russell.

At the week November 12-17 was a time marked by music-lovers to commemorate the great lyric composer, Franz Schubert. Miss Otis chose the "Serenade," which her tones, clear and true, brought out well.

The speaker of the evening, Miss Ursula Hubbard, told of the organization of the League of Nations, and of what it has accomplished in nine years in settling vexed questions between nations, in regulating world trade in narcotics, in preventing the spread of epidemics, in furthering human welfare in many ways.

Miss Hubbard's talk was illustrated by lantern slides showing interesting views and hearers were impressed with the fact that she is thoroughly mistress of her subject, and that a most important work is being quietly, persistently, steadily, carried forward by the League.

Several students of the Farmington High School, though handicapped because the room was darkened for the lantern slides, diligently took notes of Miss Hubbard's talk in order to enter the prize contest for the best reports of the meeting. The results of their endeavors are now in the hands of the judges, who will render their decision as soon as it is possible to complete a careful reading of the papers.

The next regular meeting of the Club will be held Wednesday, December 12, at the home of Mrs. M. B. Pierce, hostess and chairman, assisted by Mrs. Riddle and Mrs. Tyler.

—Helen L. Hard, Cor. Sec'y, F. W. C.
