BRAND NEW PONTIAC IS COMING!

IN KEEPING with its policy of progress, Oakland has for months been working on a new Pontiac Six. It is more than a refinement of its famous predecessors. It is essentially a brand new car from beginning to end.

Details will be announced later. But this much can be said now. This new Pontiac will represent an even greater innovation today than the first Pontiac represented in 1921. Without departing from the low-price field, it will bring to this field finer elements of style, performance and luxury never before provided in a car so inexpensive to buy!
