And More.

An estimate of your future retirement benefits.

Your year-by-year earnings—make sure they're correct.

An estimate of survivors benefits for your family.

The disability insurance benefits you and your family could be eligible to receive.

You may not have thought about this before, but right now you are earning disability insurance, survivors benefits, a retirement program, and future Medicare coverage. It's all paid for by the Social Security taxes withheld from your paycheck—and matched dollar for dollar by your employer.

And now you can find out just what those taxes are earning for you. It's easy to do and it's free. Just call 1-800-772-1213 and ask for a

Personal Earnings and Benefit Estimate Statement. When you get it, you'll see a complete history of your earnings, the Social Security taxes you've paid, and estimates of what you and your family could receive in Social Security retirement, disability, and survivors benefits.

And if there's an error or omission in your earnings record, Social Security will help you correct it.
