

We want to keep you out of the hospital.

Preventive care can keep you and your family healthy.

Botsford General Hospital wants to keep you and your family healthy by providing personal, compassionate care for life. We believe only dedicated professionals can provide care that considers your individual and total health care needs.

Primary Care Network.™ Many silent illnesses such as heart disease, diabetes, cancer, high cholesterol and hypertension may be controlled with early diagnosis and treatment. Botsford created a Primary Care Network of physicians who are dedicated to helping you maintain your health.

Our primary care physicians carefully evaluate your total health care needs and provide health screenings, physical exams, immunizations, manage on-going treatment, respond to emergency needs, and refer you to other sources when the need arises.

Botsford CardioCare Center at Botsford General Hospital offers a full spectrum of cardiac care from prevention to management. Our programs can help you find out if you're at risk as well as how to prevent and manage heart disease.

Mammography. A prescription is not required to schedule a mammogram. Botsford's mammography equipment and program are certified by the American College of Radiology and are fully licensed by the

Michigan Department of Public Health.

Michigan Sinus Institute at Botsford General Hospital takes a comprehensive and total approach to sinus care and treatment. Our physicians are trained specialists in treating diseases of the eyes, ears, nose and throat.
