

# 1994 NORTH AMERICAN INTERNATIONAL AUTO SHOW

## CCS students' work displayed

The prize-winning automotive designs of students from the Center for Creative Studies will be displayed at the 1994 North American International Auto Show within the Michelin North America exhibit. Students were challenged to design a luxury performance sedan and a family minivan-type vehicle, including tires for both, in a competi-

tion sponsored by Michelin in cooperation with CCS. The designs focused on safety. The student drawings were judged by top designers from Chrysler, Ford and General Motors as well as by a Michelin representative on originality, appropriateness and professionalism of execution. The winning tire designs will be

created into real full-size tires displayed in the Michelin exhibit, along with the vehicle sketches. Students receive \$12,000 in scholarships from Michelin. The tire company has sponsored the event for the fourth consecutive year along with CCS.

For the fourth consecutive year at the NAIAS, Michelin awards scholarships to exceptional CCS students for original tire designs.
