

New members welcomed to cable TV's family

CABLE CONNECTION
SWOCC says goodbye to Lisa Smith and to MetroVision production staff of Lisa Southerns and John Kaley. Lisa Smith went back to college full time. Lisa Southerns went on to a new career in computers and John Kaley moved into another technical department of MetroVision.

We therefore welcome Lauren Mjator to SWOCC's administrative assistant staff. For MetroVision's production staff, we welcome Jon Whitener and Marcy Hensley.

We have been fortunate to have such a fine professional family. Welcome to all our residents, and we look forward to sharing creative ideas. We also know that we will continue to see Lisa, John and Lisa from time to time at the studios as they are all proficient producers.

A mammogram will detect even the smallest cancer years before you will feel it.

If you're a woman, you're at risk for developing breast cancer. Because most breast cancers occur in women who don't have any identifiable risk factors, mammograms are even more important.

Your risk may also increase as you get older, if you have a family history of breast cancer, if you have never had children or had your first child after age 30.

Early detection through regular mammograms and self examination is your best weapon against breast cancer. A routine screening mammogram has been shown to decrease mortality by breast cancer by 25% in post menopausal patients. The American Cancer Society guidelines suggest that if you're 35 to 40 years old you should schedule a baseline mammogram. If you're 40 to 50 you should schedule a mammogram every one to two years. And if you're over 50, you should have a mammogram every year.

You don't need a doctor's prescription to schedule a mammogram. Botsford's mammography equipment and program is certified by the American College of Radiology and is fully licensed by the Michigan Department of Public Health.

Don't put it off. Call Central Scheduling at 471-8100 today to set up your appointment or for more information.
