OUR NURSES SEE THEM AS STILL BEING ATTACHED

You share the same body, the same life-giving nutrients for nine months. Each of you affects the other in countless ways.

Why is it then that many hospitals treat you and your baby like completely unrelated people?

You stay in your room. Your baby stays in the nursery. And you're each cared for by a different nurse.

A better way

At St. Mary Hospital we offer a better way to begin. A personal nurse takes care of you and your baby together to encourage the best possible start. So your nurse can tell how your comfort level, moods and medication may be affecting your baby. And how your baby's behavior influences you. This new way of caring is called mother-baby nursing.

Mother-baby nurses

With mother-baby nurses, you can learn by watching the nurse care for your newborn at your bedside instead of out of your sight in a nursery. If you have a question about your baby, the nurse can answer it immediately. You won't have to wait for the "baby nurse."

More support, more education. It's a better way of caring. To learn more about the benefits of mother-baby nursing call 313-591-2882. Ask for a free brochure, tour, or physician referral.
