

# Keep camera handy for photo watch

**MONTE NAGLER**

How many times have you been out walking or driving when suddenly an unusual picture possibility presents itself and just as quickly is lost because you don't have a camera handy? Perhaps it's a cluster of trees shrouded in a blanket of morning fog or a dazzling sunset, the likes of which you haven't seen in a long time. The images are right there in front of you with an open invitation to be photographed, but alas, your camera isn't handy.

Well, a good habit to begin is to keep a camera with you whenever possible. You don't have to have your full complement of equipment. At times this just won't be practical.

But you can easily have a single camera and lens with you or even a small, light point-and-shoot in your pocket. Whichever you choose, you'll be glad your camera was handy when that special shot

didn't get away. The photograph shown here was taken near Zanesville, Ohio. As I turned a corner, I couldn't believe at first what greeted me: two nuns in full habits with backpacks and walking sticks. How often do you encounter such an unusual and exciting subject, and in a small town such as Zanesville? I thanked my lucky stars I had my camera loaded and next to me in the car.

I knew I had only a moment to capture this fleeting scene. I pulled to a quick stop, determined proper exposure in an instant and shot right through the windshield.

This is an image I may never see again, but because my camera was handy, I was able to get the shot.

Don't lose the "magic moments" of life. It could be the enchanting glimmer in your child's eye during his first visit to the zoo. Or it could be an close to home as the family gathering in the back yard and Grandma getting a special hug. Keep your camera handy and you won't miss out.

Good heavens!: Having his camera handy enabled Monte Nagler to capture this most unusual picture taken in Zanesville, Ohio.
