weekudys.

Brighten windows

The concept of spring cleaning has taken on a whole new meaning since West Bloomfield-based Pel-Bloomfield-based Pel-la Window & Door Co. introduced Smart-Sash, the concept of putting blinds, shades and wooden grills be-tween panes of glass.

Building on that innovative concept, Pella recently introduced Raise and Lower Slimshade, a new addition to the Designer Series of Pella products. The new mechanism allows homeowners to raise and lower the blinds and can be combined with the wooden grills of SmartSash II products.

"That is why we designed Slimshade to be energy efficient. Installing our product can cut winter heat loss by up to 52 percent and summer heat gain by up to 42 percent."
