Howl's about a little Halloween fun?

CABLE CONNECTION
If you think that only goblins and ghosts will be out for Halloween, guess again. Our TV cameras are fired up and ready to shoot, on the street and in the studio.

Kids, wait till you hear what Donnell Ziedman, production specialist of the Southwestern Oakland Cable Commission (SWOCC), has in store for you. She is extending an invitation to all children up to 10 years of age to come down to their community TV studio for the "Uncle Art's Halloween Special" TV show. He's really Arthur Cervi, local Novi resident and extremely talented actor.

The event begins at 7 p.m. Wednesday, Oct. 26, in our studio, located at 24021 Research Drive, Farmington Hills 48335.

Uncle Art will be giving out goody bags with treats galore. Besides, kids will be able to show off their costumes and be on real live TV.

Call the SWOCC studio at 473-7266 for reservations, and ask for Donnell Ziedman. There is no cost, however, space is limited. So call today.

And if that doesn't put you in a spooking good mood, treat yourself to a howling great time at Farmington's Halloween Fest 10:30-11:30 p.m. Oct. 29. Downtown merchants will be handing out lots of treats for the kiddies. There will be a free petting zoo, pony rides and moon-walk. Don't miss the psychic tent, cloggers and Western Line Dancers. There will be costume contests for children as well as adults. MetroVision is one of the sponsors of this community event.

Be on the lookout for the roving camera, it belongs to Leigh Byrd, community access coordinator at MetroVision. Byrd is a "tricky bird." She's out to make you a star. Video footage shot that day will be on TV. So smile, you may be on Channel 12.

Don't forget now — Uncle Art is waiting for your call. Contact Donnell Ziedman at the Southwestern Cable Commission at (810) 473-7266 today.

Mary Linda Calderone is the community outreach coordinator for the Southwestern Oakland Cable Commission.

Family Talk.

The doctors at St. Mary Hospital believe that the things that go into making a good family — sharing, cooperation, and these involvement — are the very things that are needed for good medical care. So, we listen to our patients. Their thoughts, their concerns, their expectations and those of the family. And when we talk to our patients we avoid using medical terms and try to be understood as well as understood.

Whether talking with one person, we are able to make things very clear and understandable. We want you to know that we are here to help you. We want you to know that we are here to help you. We want you to know that we are here to help you.
