In 1848, Henry Cole of London, dreamed up the idea of sending a Greeting Card to his friends, thus originating the first Holiday Card. It was a 3-panel card showing a family party in the center. The side panels depicted the old tradition of feeding and clothing the needy. The wording "Season's Greetings and Happy New Year" has never been surpassed.

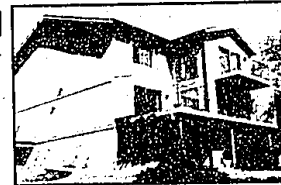

How appropriate that the first Holiday Card depicted a family party and old traditions, for the Holidays are a very special time of year which to this day are centered around family and friends.

This is a season that would not have the same feeling if it were not shared with someone. It is a festival which should not be indulged in alone. The red ribbon around the simplest gift causes that gift to take on a merit which it did not possess before; one word on a card written in sincerity may brighten the darkest winter day.

While these are indeed joyous days, may we, particularly at this time, be ever mindful of those less fortunate than ourselves. We are indeed thankful for the business in which we work, providing us marvelous opportunities to make positive contributions to our communities and to those who live and work in them. It gives us the means to perform a very valuable service, which in turn, provides many new personal experiences and friends.

Our company is celebrating its 42nd Holiday Season. We recognize and appreciate that it is our customers and clients whose patronage have permitted us to reach this milestone. We say quite simply - "Thank you".

Best wishes for a Holiday Season filled with fun moments and warm memories to last a lifetime!
