doubt the most maligned ort of all South America is a Guaira in Venezuela. It not the worst place in the orld, yet a gentleman sent at by a department of the user government for callest out by a department of the United States government to collect informatily recently arrived just in time, by funning, to make connections with the train for Caracas, and departing went out with the same speed, in response to the question as to his parting wont out with the same speed, in responsa to the question as to his, object to neglecting commercial conditions of this port, he said he was told to "avoid La Guaira, bicause no man could endure its heat; it was pestilential." Many people live in, La Guaira, "their lives, and I know a number 2 ho are not dead yet. The poetry all bree remains and in the condition of the condition. But the condition of the conditions is the condition of the conditions. But the condition of the conditions is the condition of the conditions. But the condition of the conditions is the condition of the conditions of the conditions of the conditions of the conditions. But the condition of the conditions is the condition of the conditions. But the condition of the conditions is the condition of the conditions. But the condition of the conditions is the condition of the condition of the condition of the conditions. But the condition of the condi

ently similar in construction and form to the other.

The gardens, the flag parement of the gardens, the flag parement of the scashore, are more or less as they must have been when the Amyah Lelgh of the story came with his brother Frank, who cought his indy bere, only to flad the "Rose of Tortide" in possession of this endings of the story of the scashore of the scashore of the scashore of the scale of t

the Caribbean Sea on the other are visible.

The Caracas railway offers also a most delightful trip, rising to an elevation of 3,200 feet in 21 miles of distance. It is a succession of sharp curves and steep grades, and as it climbs the mountain side poe encounters beconery rare in its variety. The sea, the harbor, the towns of La Guaira and Maiquetia, and the flat Guaira and Maiquetia, and the flat groves of banana trees wave for the control of the co below. The malestic mountains bover bigh above, and canyons stretch out beneath with thread-like rivulets flowing along their sandy beds. There is much that reminds one of the secute changes of the Rio Brandon in Unit and Colorado, but the low Englistic changes of the Rio Endow in the Rio Endow

back to his ships, escaping with the booty, and with the loss of but, few men.

French pirates under bne M. Grammont found La Guaira casy prey in 1850; but the Dutch (in 1703) and the English naval forces (in 1733 and 1743) were driven or, the fortifications at La Guiara by that time having assumed considerable proportions. They were strong because of their commanding positions on the hills overlooking town and hardward and an and a second of the commanding positions on the hills overlooking town and hardward and an and the hills above La Guaira the second of the hills above La Guaira can be made to the hills above La Guaira and the hills above La Guaira and the hills above La Guaira and the second control of the hills above the hills and the second propositions are still maintained as military posts, where are now two modern cannon. Seeing these old ruins one can well appreciate how the Guairence were able to beat off the ships of war of that time.

La Guaira has been frequently the seat of war during its existence, and forceign warnings its relating its destruction are not unknown to the present on generation.
