**The Providence Heart Institute**

Quality care — a Providence hallmark for 150 years

This year, Providence celebrates 150 years of service to metro-Detroiters. Quality care with a special personal touch has always been our hallmark.

Through the years, thousands of patients have trusted Providence Hospital in Southfield in matters of the heart. Now our full range of cardiac care services has become even better.

**Convenient outpatient care**

As we've grown, we've listened to what our patients and their doctors want. The result is the Providence Heart Institute, where comprehensive cardiac diagnostic testing and evaluation services are available in one convenient location.

You'll walk a few steps from dedicated complimentary parking at the Hospital's main entrance to register in a central location, then proceed to the Institute where helpful staff will coordinate, schedule and deliver all of your outpatient care, including cardiac rehabilitation.

Private lockers, changing rooms and conference space, as well as added space in diagnostic stress testing areas, will make your time with us comfortable.

**Comprehensive cardiac services**

Quality cardiac care depends on accurate diagnosis and treatment. Providence has an outstanding record for cardiac services, with complication rates below national averages.

Providence offers a full range of cardiac services including electrocardiography, echocardiography, stress testing, pacemaker and arrhythmia clinics, cardiac catheterization, angioplasty, atherectomy, cardiac stents, cardiac surgery and cardiac rehabilitation. In 1992, Providence also opened Oakland County's first chest pain emergency unit to care for patients in those critical first hours when chest pain begins and is most responsive to treatment.

The Heart Institute can be reached by calling (810) 424-2000.
