No two emergencies are exactly alike. So all emergency care shouldn't be the same either.

That's why we designed and equipped our emergency department to handle everything from minor accidents to life-threatening injuries. If there are any questions about the seriousness of the emergency, a specially trained nurse is on hand to evaluate the situation and direct you to the appropriate level of treatment.

And whether you're a walk-in patient or require critical care, you'll receive the same quick and personalized medical attention from doctors who are specially trained in emergency medicine.

Our emergency care is backed by the resources of a full-service hospital, it's available 24 hours a day, every day, and it comes with the understanding that minor problems shouldn't result in major expenses... good reasons to go to St. Mary Hospital for sudden illness or injury. For more information call us at (313) 464-WELL.

Because when it comes to family emergencies, this specialized care we offer is no accident.
