VISIT OUR WOMAN'S RESOURCE LIBRARY MARIAN WOMEN'S CENTER

Family Tradition.

Every family has its traditions. Gathering for Sunday dinner. Marking anniversaries and celebrating birthdays. Unfortunately, some families share more than happy times... they also share the risk of certain illnesses. Breast cancer—which now strikes one in nine American women—is among them. If your mother, grandmother, aunt or sister has been diagnosed with this disease, your doctor probably has explained the added risk you face. But unlike women in past generations, you can put time and technology on your side.

We at the Marian Women's Center, St. Mary Hospital, encourage you to see your doctor regularly whatever your age and, once you reach 40, to see us for a mammogram. Our mammography services are designed to give you peace of mind by bringing together certified radiologists and other personnel and high-tech imaging equipment approved by the American College of Radiology.

Make mammography and regular breast exams a new family tradition. For more facts on mammography services and other services at the Marian Women's Center, call us at (313) 991-3131.
